9-17 Notes to the Financial Statements

### THE QUEEN'S COLLEGE, OXFORD Report of the Governing Body

The Governing Body of The Queen's College presents the annual report and financial statements for the year ended 31 July 2010.

#### **Status**

The Queen's College is an eleemosynary chartered charitable corporation aggregate. It was founded, under licence granted 18 January in the year 1341 by King Edward the Third, by Robert de Eglesfield, Clerk, Chaplain to Queen Philippa. The corporation comprises the Provost and Scholars of The Queen's College in the University of Oxford. The College is an exempt charity under s3(5a) Charities Act 1993 (as listed in Schedule 2(b) to that Act).

#### **Objects**

The College exists to provide and promote undergraduate and graduate education within the University of Oxford, and also to provide and promote university academic research. Within these Objects, the College also has various permanently endowed trust funds held for special purposes in connection with the development of College facilities and for scholarships, bursaries, prizes and other educational purposes.

#### Governance

The Governing Body of the College comprises the Provost and those Fellows of the College qualified for membership under the provisions of its Statutes. This body is constituted and regulated in accordance with the College Statutes, the terms of which are enforceable ultimately by the Visitor, the Archbishop of York. The College Statutes are as made from time to time by order of Her Majesty in Council in accordance with the Royal Charter of 1341 and the Universities of Oxford and Cambridge Act 1923. The Governing Body holds to itself responsibilities for the strategic direction of the College, for its administration and for the management of its finances and assets .

#### Review of operations and finance

The College had a surplus of £1,030,000. (2009: Surplus £301,000). As explained in the accounting policies the College includes the total return on its investments in the income and expenditure account. There are no other particular aspects to which we wish to draw attention this year.

#### Investment performance

In order to sustain the College's general level of activity into the future, the College has set itself the target of growing the endowment by 2% in real terms per annum. The Governing Body calculates the sustainable income that may be drawn from endowment in a manner that is consistent with this policy. Over the last year, a share in the College's endowment pool produced a total return of 19.1% nominal (16.0% real). The capital value rose by 15.8% nominal (12.7% real). Over the past three years, the total return averaged 4.8% nominal (2.6% real), and the capital growth averaged 1.9% nominal (-0.4% real).

#### Reserves

The balance on reserves at the year end amounted to £7,594,000 (2009: £6,389,000). After allowing for the amounts invested in fixed assets and designated reserves for special purposes, the College's general reserve was £1,847,000 (2009: £1,034,000). The College seeks to maintain the general reserve at a level that will meet any short-term requirements. This is achieved by transfers to and from General Endowment.

#### Risk management

The major risks to which the College is exposed, as identified by the Governing Body, have been reviewed and systems established to mitigate these risks.

Approved by the Governing Body of The Queen's College on 5 December 2010.

PA Madden Provost

### THE QUEEN'S COLLEGE, OXFORD Responsibilities of the Governing Body

In accordance with the College's Statutes, the Governing Body is responsible for the administration and management of the College's affairs.

It is responsible for ensuring that there is an effective system of internal control and that accounting records are properly kept. It is required to present audited financial statements for each financial year, prepared in accordance with the Statutes of the University. The Governing Body are also responsible for preparing the annual report and the financial statements in accordance with applicable law and United Kingdom Generally Accepted Accounting Practice.

In preparing the financial statements, the Governing Body has ensured that:

- · suitable accounting policies are selected and applied consistently;
- judgements and estimates are made that are reasonable and prudent;
- applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- it is satisfied that it has adequate resources to continue in operation for the foreseeable future: accordingly the financial statements are prepared on a going concern basis.

The Governing Body has taken reasonable steps to:

- ensure that there are appropriate financial and management controls in place to safeguard the assets of the College and prevent and detect fraud;
- secure the economical, efficient and effective management of the College's resources and expenditure.

Any system of internal financial control, however, can only provide reasonable, not absolute, assurance against material misstatement or loss.

Under the Charities Act 1993 the College is an exempt charity and the members of the Governing Body must ensure that the property and income of the College are applied only in support of purposes which are charitable in law.

### THE QUEEN'S COLLEGE, OXFORD Independent Auditors' Report to Governing Body

We have audited the financial statements of The Queen's College for the year ended 31 July 2010 which comprise the principal accounting policies, the income and expenditure account, the statement of total recognised gains and losses, the balance sheet, the cash flow statement, and notes 1 to 23. These financial statements have been prepared under the accounting policies set out therein

This report is made solely to the Governing Body, in accordance with the College's statutes. Our audit work has been undertaken so that we might state to the Governing Body those matters we are required to state to it in an auditors' report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the College and the College's Governing Body, for our audit work, for this report, or for the opinions we have formed.

#### RESPECTIVE RESPONSIBILITIES OF THE GOVERNING BODY AND AUDITORS

The Governing Body's responsibilities for preparing the Report of the Governing Body and the financial statements in accordance with the provisions of Statute XV made by the University of Oxford under the Universities of Oxford and Cambridge Act, 1923, and of Regulations for the accounts of the colleges made thereunder, are set out in the Responsibilities of the Governing Body. The Governing Body are also responsible for the preparation of the financial statements in accordance with United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

Our responsibility is to audit the financial statements in accordance with relevant legal and regulatory requirements and International Standards on Auditing (UK and Ireland).

We report to you our opinion as to whether the financial statements give a true and fair view and are properly prepared in accordance with the provisions of Statute XV made by the University of Oxford under the Universities of Oxford and Cambridge Act, 1923, and of Regulations for the accounts of the colleges made thereunder. We also report to you if, in our opinion, the Report of the Governing Body is not consistent with the financial statements, if the College has not kept proper accounting records, or if we have not received all the information and explanations we require for our audit.

We read the other information contained in the Report of the Governing Body and consider whether it is consistent with the audited financial statements. We consider the implications for our report if we become aware of any apparent misstatements, or material inconsistencies with the financial statements. Our responsibilities do not extend to any other information.

#### **BASIS OF OPINION**

We conducted our audit in accordance with International Standards on Auditing (UK and Ireland) issued by the Auditing Practices Board. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements. It also includes an assessment of the significant estimates and judgements made by the Governing Body in the preparation of the financial statements, and of whether the accounting policies are appropriate to the College's circumstances, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or other irregularity or error. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the financial statements.

#### OPINION

In our opinion:

- a) the financial statements give a true and fair view, in accordance with United Kingdom Generally Accepted Accounting Practice, of the state of affairs of the College as at 31 July 2010 and of its surplus for the year then ended;
- b) the financial statements have been properly prepared in accordance with the provisions of Statute XV made by the University of Oxford under the Universities of Oxford and Cambridge Act, 1923, and of Regulations for the accounts of the colleges made thereunder, and:
- c) in all material respects, income received from the University of Oxford out of grants from the Higher Education Funding Council for England during the year ended 31 July 2010 has been applied to the purposes for which it was received.

Critchleys LLP Statutory Auditors Chartered Accountants Oxford

### THE QUEEN'S COLLEGE, OXFORD Statement of Principal Accounting Policies

#### Basis of preparation

The financial statements have been prepared under the historical cost convention as modified by the revaluation of endowment asset investments and in accordance with applicable accounting standards and according to the University of Oxford Statute XV to meet specific requirements imposed by University and College statutes.

These specific requirements reflect the provisions set out in the Statement of Recommended Practice ("SORP"): Accounting for Further and Higher Education issued in July 2003 but have not been updated for the introduction of the amended version of this SORP issued in July 2007. Due to the proposed future movement of the College financial statements to the Charities SORP, which is expected to be implemented in conjunction with the registration of the Oxford Colleges with the Charity Commission, the University of Oxford College Accounts Committee has concluded that there is no benefit in amending the specific requirements this year.

The accounts of the affiliated student bodies (The Queen's College Junior and Middle Common Rooms) have not been consolidated because the College does not control these activities.

During the year the College incorporated a wholly owned subsidiary, The Queen's College Oxford Trading Limited. The subsidiary did not trade during the year and therefore its accounts have not been consolidated.

#### Recognition of income

Fees and other income for services provided are credited to the income and expenditure account on a receivable basis. Income from specific endowments and other restricted income is included to the extent of the relevant expenditure incurred during the year. Income from general endowments (the use of which is not legally restricted to a specific purpose or activity) is included in the income and expenditure account on the basis of the sustainable return on the underlying investments.

#### General donations

Unrestricted donations and benefactions are normally credited to general endowment on a receivable basis. At the discretion of the Governing Body, unrestricted donations and benefactions may under certain circumstances be credited to income on receipt.

#### Pension costs

Contributions to the pension schemes provided for employees of the College are charged to the income and expenditure account on the basis of contributions payable during the year.

#### Tangible fixed assets

Tangible fixed assets are stated at cost and are depreciated on a straight line basis over the following periods:

Freehold buildings 50 years
Building improvements 20 - 50 years
Equipment 4 - 10 years

Freehold land is not depreciated.

The cost of major renovation projects which increase the service potential of buildings is capitalised and depreciated over applicable periods.

The College operates a "de minimis" limit of £10,000 for the capitalisation of expenditure on equipment. Works of art and other valuable artefacts that can be regarded as inalienable are not included in the financial statements.

#### Investments

Endowment asset investments are included in the balance sheet at market value. Current asset investments are included at the lower of cost and net realisable value.

#### Stocks

Stocks are stated at the lower of their cost and net realisable value. Where necessary, provision is made for obsolete, slow moving and defective stocks.

#### Maintenance of premises

The cost of routine corrective maintenance is charged to the income and expenditure account in the period it is incurred.

### THE QUEEN'S COLLEGE, OXFORD Statement of Principal Accounting Policies

#### Foreign currencies

Transactions denominated in foreign currencies are recorded at the rate of exchange ruling at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated into sterling at year-end rates of exchange or, where there are related forward foreign exchange contracts, at contract rates. The resultant exchange differences are included in the income and expenditure account for the year.

#### **Taxation status**

As an exempt charity within the meaning of Schedule 2 of the Charities Act 1993, the College is potentially exempt from taxation in respect of income or capital gains received within categories covered by Section 505 of the Taxes Act 1988 or Section 256 of the Taxation of Chargeable Gains Act 1992 to the extent that such income or gains are applied to exclusively charitable purposes. The College receives no similar exemption in respect of Value Added Tax.

#### **College Contribution Scheme**

The College is liable to be assessed for Contribution under the provisions of Statute XV of the University of Oxford. The Contribution Fund is used to make grants and loans to colleges on the basis of need. Contribution is calculated annually in accordance with regulations made by Council.

It is standard accounting practice to disclose further information relating to staff numbers and analyses of remuneration for higher paid employees. This information has not been included due to the particular difficulty of presenting meaningful data for staff jointly employed by the University and colleges.

#### **5 PENSION SCHEMES**

The College participates in two principal pension schemes for its staff - the Universities Superannuation Scheme ('USS') and the University of Oxford Staff Pension Scheme ('OSPS'). Both schemes are contributory defined benefit schemes (i.e. they provide benefits based on length of service and final pensionable salary) and are contracted out from the State Second Pension Scheme. The assets of USS and OSPS are each held in separate trustee-administered funds. Both schemes are multi-employer schemes and the College is unable to identify its share of the underlying assets and liabilities of each scheme on a consistent and reasonable basis. Therefore, in accordance with the accounting standard FRS17 "Retirement Benefits", the College accounts for the schemes as if they were defined contribution schemes. As a result, the amount charged to the income and expenditure account represents the contributions payable to the schemes in respect of the accounting period.

In the event of the withdrawal of any of the participating employers in USS, the amount of any pension funding shortfall (which cannot be otherwise recovered) in respect of that employer will be spread across the remaining participating employers and reflected in the next actuarial valuation of the scheme. However, in OSPS, the amount of any pension funding shortfall in respect of any withdrawing participating employer will be charged to that employer.

#### **Actuarial valuations**

Qualified actuaries periodically value the Schemes. Both USS and OSPS were valued using the "projected unit" method, embracing a market value approach. The resulting levels of contribution take account of actuarial surpluses or deficits in each scheme. The financial assumptions were derived from market conditions prevailing at the valuation date. The results of the latest actuarial valuations and the assumptions, which have the most significant effect on the results of the latest valuations and the determination of the contribution levels, are shown in the following table.

|  | USS        |      | OSPS       |     |
|--|------------|------|------------|-----|
| Date of valuation:   | 31/03/2008 |      | 31/07/2007 |     |

#### 5 PENSION SCHEMES (Continued)

#### Notes

- a USS' actuary will undertake an actuarial valuation of the Scheme as at 31 March 2011, the results of which are not expected to be finalised until December 2011, with publication of the final results in 2012.
- b In the light of the considerable swings in markets since the valuation date, the nature of the demographic and financial assumptions used in the ongoing and solvency valuations, the significant positive cash flows and equity orientated investment strategy, USS' actuary recommended, and the Trustee agreed, that the small ongoing funding surplus should be carried forward to the next valuation.
- c OSPS' actuarial valuation as at 31 July 2007 identified a required long-term employer contribution rate of 17.85% of total pensionable salaries, but also a funding deficit of £43.2m. The University, on behalf of all the employers participating in the scheme, has agreed with the trustees of OSPS to address this deficit by increasing the employer contribution rate to the previously agreed rate of 21.5% of total pensionable salaries with effect from 1 August 2008. The actuary has certified that the additional 3.65% contribution should eliminate the deficit by 31 July 2025.
- d Since 31 March 2008, global investment markets have continued to fluctuate and the actuary has estimated the funding level of USS had fallen from 103% at 31 March 2008 to 91% (a deficit of £3,065m) at 31 March 2010. This estimate is based on the funding level at 31 March 2008, adjusted to reflect the fund's actual investment performance over the two years and changes in market conditions (market conditions affect both the valuation rate of interest and also the inflation assumption which in turn impacts on the salary and pension increase assumptions). On the FRS17 basis, the actuary estimated that the funding level at 31 March 2010 was 80% and on a buy out basis was approximately 57%.
- e The USS employer contribution rate required for future service benefits alone at the date of the valuation was 16.0% of total pensionable salaries and the Trustee company, on the advice of the actuary, decided to implement the increase from 14% to 16% on 1 October 2009.

#### Sensitivity of actuarial valuation assumptions:

Surpluses or deficits, which arise at future valuations, may impact on the University's future contribution commitment. The sensitivities regarding the principal assumptions used to measure the scheme liabilities are set out below:

#### uss

An increase of 0.5% in the valuation rate of interest would result in a decrease of £2.2 billion in scheme liabilities An increase of 0.5% in the rate of pension increases would result in an increase of £1.5 billion in scheme liabilities An increase of 0.5% in the rate of salary growth would result in an increase of £0.7 billion in scheme liabilities An downrating by one year in the mortality rate would result in an increase of £1.6 billion in scheme liabilities

#### **OSPS**

An increase of 0.5% in the valuation rate of interest would result in a decrease of £30 million in scheme liabilities An increase of 0.5% in the rate of pension increases would result in an increase of £20 million in scheme liabilities An increase of 0.5% in the rate of salary growth would result in an increase of £7 million in scheme liabilities An downrating by one year in the mortality rate would result in an increase of £10 million in scheme liabilities

#### Pension charge for the year

The pension charge recorded by the College during the accounting period was equal to the contributions payable as follows

| Universities Superannuation Scheme        | £'000<br>255 | £'000<br>222 |
|---|--------------|--------------|

£8M is borrowed from Handelsbanken NV and is unsecured with interest charged at 0.25% above LiBOR. A further loan of £7M, to fund the extension and refurbishment of the catering and dining facilities at the main College site has been borrowed from Barclays PLC. This loan is also unsecured with interest charged at 0.20% above LIBOR.

The College intended to extend and improve its library facilities in the near future. The costs incurred since 2008 had therefore been capitalised as fixed assets. However following a review the College has decided not to proceed at present with the building and has therefore written off the capitalised expenditure against deferred capital.

Endowments comprise those funds which are regarded as for the long term and which fundamentally underpin and sustain the operation of the College at its desired level of activity.

Specific Endowments are those bequests and gifts where the use of the capital and income, or only the income, is for a specific purpose or activity so designated by the donor and which can only be used for that purpose or activity.

General Endowments represent the corporate capital of the College and include bequests and gifts where the use of the capital and income, or only the income is for the general purposes of the College. General Endowments include designated funds of £12,160,000 (2009: £5,865,000)

Specific endowments include funds valued at £175,000 (2009: £146,000) which provide income for purposes that lie outside the objects of the College. Income arising amounted to £5,000 (2009: £4,000).

Specific endowments include expendable balances of £836,000 (2009: £565,000)
