St Peter's College
Report of the Governing Body
Year ended 31 July 2014

The Members of the Governing Body present their Annual Report for the year ended 31 July 2014 under the Charities Act 2011 together with the audited financial statements for the year.

REFERENCE AND ADMINISTRATIVE INFORMATION

The College of St Peter Le Bailey University of Oxford, which is known as St Peter's College, ("the College") is an eleemosynary chartered charitable corporation aggregate. It was founded by Rt Revd Francis James Chavasse as St Peter's Hall in 1929. In October 1947 St Peter's Hall was admitted to the privileges of a New Foundation and in November 1961 it became a full College. The University Statue of 7 February 1961 conferring this status took effect on 22 November 1961, when a Royal Charter of incorporation was granted.

The College is registered with the Charity Commission (registered charity number 1143166).

The names of all Members of the Governing Body at the date of this report and of those in office during the year, together with details of the senior staff and advisers of the College, are given on pages 2 to 4.

STRUCTURE, GOVERNANCE AND MANAGEMENT

Governing documents

The College is governed by its Statutes dated 26th July 1995.

Governing Body

The Governing Body is constituted and regulated in accordance with the College Statutes, the terms of which are enforceable ultimately by the Visitor, who is the Bishop of Liverpool.

New members of the Governing Body are elected on the basis of holding an Official or Professorial Fellowship. The Governing Body has discretion to elect Fellows in other categories as provided for in the Statutes.

The Governing Body determines the ongoing strategic direction of the College and regulates its administration and the management of its finances and assets. It meets regularly under the chairmanship of the Master and is advised by a broad range of committees.

Recruitment and training of Members of the Governing Body

New Members of the Governing Body are recruited normally by means of academic appointment process and inducted into the workings of the College, including Governing Body policy and procedures, by senior College officers.

Members of the Governing Body are provided with guidance material from the Charity Commission and other sources to keep them informed on current issues in the sector and on regulatory requirements.

Organisational management

The Governing Body meets nine times a year, with provision for additional meetings should the need arise. The work of developing its policies and monitoring the implementation of these is carried out by a range of Committees, the main ones of which are as follows:

- The Audit, Risk & Remuneration Committee
- The Academic Affairs Committee
- The Finance & Administration Committee
- The Building Committee
- The Development Committee
- The Investment Committee
- The Student Affairs and Welfare Committee

The day-to-day running of the College is delegated to the Bursar, supported by the Finance Director, and College Registrar. The Bursar attends meetings of the main Committees.

Group structure and relationships

The College has no subsidiaries.

The College is part of the collegiate University of Oxford. Material interdependencies between the University and the College arise as a consequence of this relationship. For reporting purposes, the University and the other Colleges are not treated as related parties as defined in FRS8 ("related party disclosures").

Risk management

The College is engaged in risk assessment on an ongoing basis. When it is not able to address risk issues using internal resources, the College takes advice from experts external to the College with specialist knowledge. Policies and procedures within the College are reviewed by the relevant College Committee, chaired by the Master or a member of the Governing Body.

Financial risks are assessed by the Finance and Administration Committee and the Audit, Risk and Remuneration Committee. Investment risks are monitored by the Investment Committee. In addition, the Bursar, HR Officer, Facilities Manager and domestic staff heads meet regularly to review health and safety issues. Training courses and other forms of career development are available, when requested and when appropriate, to members of staff to enhance their skills in risk-related areas.

The Governing Body, which has ultimate responsibility for managing any risks faced by the College, has given consideration to the major risks to which the College is exposed and has concluded that adequate systems are in place to manage these risks. It is recognised that systems can provide only reasonable, not absolute, assurance that major risks have been managed.

OBJECTIVES AND ACTIVITIES

Charitable Objects and Aims

The College's Objects are defined as follows in the Royal Charter of 1961:

(a) (i) To maintain and promote education religion and learning for and among students generally of whatever religious persuasion and especially to give aid to students in straitened or reduced circumstances who shall be deemed worthy thereof by its Council by way of Bursaries, Scholarships, Exhibitions or by such other means as in the opinion of and at the absolute discretion of the Council be most conducive to the advancement of such students and the attainment of these objects.

(ii) To train, cherish and encourage candidates for Holy Orders in the Church of England or any students or other persons intending to labour for Foreign Missions with which the Ministry of the late Bishop James Hannington was particularly identified.

(iii) To diffuse sound information and teaching of and in Christian principles and doctrine in conformity with Holy Scripture and particularly the Protestant and reformed teaching of the Church of England as set forth in the Book of Common Prayer annexed to the Act of Uniformity of 1662 and the 39 Articles of Religion and Ordinal as now ordinarily bound up with such Book and so that the teaching of the Hall and the conduct of the services in the Chapel thereof shall be in all respects in accordance with such principles.

(b) To provide for members of the University of Oxford a college wherein they may participate in the educational facilities offered by, and study for Degrees in, the University of Oxford.

The College is in the process of reviewing its governance documents and will be seeking to update the Objects in order to reflect more closely the full range of activities that it currently carries out.

The Governing Body is mindful of the long-standing requirement to provide public benefit and of the disclosure requirements of the Charities Act 2011. In this connection the Governing Body has taken account of the general and supplemental guidance produced by the Charity Commission, in particular its public benefit guidance on advancement of education and on fee-charging.

The College is classified by the Charity Commission as having an overall aim for the public benefit of providing education and training. It is further classified as helping young people, and more widely, the general public and mankind; providing buildings, facilities and services; and sponsoring/undertaking research.

Public benefit

The College remains committed to the aim of providing public benefit in accordance with its founding principles.

The College's day to day activities revolve around studying, teaching and research. Undergraduates are expected to work to satisfy the demanding requirements of an Oxford degree course and their work is supervised and monitored by their Tutors. They are taught individually or in very small groups, classes and seminars by Fellows in the College supplemented, where appropriate, by Tutors from other colleges. Many in addition are also taught in their University departments. The teaching aims not only to pass on knowledge but, beyond that, to nurture independent thought and analysis.

The College provides every graduate student with an advisor who is able to provide support, advice and encouragement for students engaged in a Masters or doctoral (DPhil) programme, though the teaching is organised and provided by the wider University. The College arranges academic seminars focused on its graduate students.

The Library is actively managed by a full time Librarian, and has a plentiful supply of books and is a good environment for study.

The College is the focus for a great deal of musical, cultural and sporting activity. There are many teams to accommodate students with different abilities. There are talks, plays, literary magazines, charitable activities, a film society and much else.

The students are all supported by a welfare system which aims to ensure that no student feels isolated. The welfare arrangements operate smoothly under the overall direction of a member of the Governing Body. Advice and counselling is always available on a range of issues during term time. Students also have full access to the extensive health, welfare and disability advice network of the University of Oxford, including the University Counselling Service and the Disability Advisory Service.

A great many of the Fellows are engaged in research – some of it with the potential to help solve medical, scientific or social problems. Other research is aimed at expanding our understanding of cultural, anthropological, historical or literary matters.

Activities and objectives of the College

The College's principal activity is to provide, in conjunction with the University of Oxford, an education for some 350 undergraduate, 125* graduate students and 25 Visiting Students, which is recognised internationally as being of the highest standard. This education develops students academically and prepares them to play full and effective roles in society. In particular the College provides:

- teaching facilities and individual or small-group supervision, as well as pastoral, administrative and academic support through its tutorial and graduate mentoring systems;
- social, cultural, musical, recreational and sporting facilities to enable each of its students to realise as much as possible of their academic and personal potential whilst studying at the College.

(*Overall graduate numbers have increased as a result of an increase in the number of places offered for entry in Michaelmas term 2013 from around 60 to 85; this has been replicated in 2014.)

ACHIEVEMENTS AND PERFORMANCE

94% of the undergraduates who finished their studies this year obtained either a First or a 2.1 and more than a quarter of the students gained a First.

Application numbers to St Peter's College have remained static for the past few years. We undertake extensive outreach work, coordinated by the Schools Liaison Officer, and in 2013 the number of state school applicants was higher than in previous admission cycles. Our annual review of admission procedures (involving both fellows and College Lecturers) showed that the majority of direct applicants to the College had had some contact with the College (Open Day, Study Afternoon). The College is allocated a large number of open applicants, many of whom are international candidates.

The College performs in line with the Oxford norm in student satisfaction surveys. These suggest that the overwhelming majority of students at St. Peter's are happy with the teaching, the library and College facilities.

Graduate seminars were well attended and there was a rich diet of social activities aimed at graduate students.

Financial Support for Students

In order to assist undergraduates entitled to public support, the College and the University jointly provided Bursaries to help those of limited financial means. In 2013/14 238 students received such bursaries and a total of £193k was awarded.

The College operates a hardship fund to support students who need further help.

The College also supports all its students through scholarships, prizes and travel & research grants (£100k awarded in 2013/14).

Academic

The College appointed a number of Fellows this year, as follows:

Professorial Fellows

Prof Danny Dorling (Geography)
Prof Phillip Rothwell (Portuguese).

Official Fellows (appointed w.e.f. 2014-15 academic year)

Dr Ines Moreno de Barreda (Economics)
Dr Marina Mackay (English)
Dr Stephen Baxter (History)
Dr Nicholas Tosca (Earth Sciences)
Dr Marc Macias-Fauria (Physical Geography).

St Peter's College
Report of the Governing Body
Year ended 31 July 2014

Our Tutorial Fellows make a strong contribution to University Life. Dr Huw Dorkins, Senior Proctor 2012-13, is a member of Council, Dr Lawrence Goldman (soon to become Head of the Institute for Historical Research in London) is Editor of the Oxford Dictionary of National Biography, Dr Geoff Nicholls is head of the Department of Statistics, Dr Abigail Williams holds a 2-year appointment as Knowledge Exchange Fellow for the Humanities Division and Dapo Akande is Co-Director of the Oxford Institute for Ethics, Law and Armed Conflict (Oxford Martin School). In October 2014, Dr Hanneke Grootenboer will take on the role of Head of the Ruskin School of Drawing and Fine Art. Beyond Oxford, Prof Jan Schnupp holds the position of Jack Ashley Memorial Fellow in public Engagement for the national charity Action of Hearing Loss.

The Fellows continue to publish peer reviewed articles and books. Several of them have also disseminated the results of their research to wider audiences through radio, television and public lectures.

Chapel and Choir

The musical life of the College is particularly rich. The choir's reputation is considerable and there is also a strong instrumental tradition. There were a large number of concerts, an opera and lunchtime recitals, as well as summer tours in both the UK and Europe by the choir.

Archives

The largest single cataloguing project in the past year has been the box-listing of the Chavasse papers, currently on deposit at the Bodleian. These 145 boxes have now been listed. The personal papers of the family up to the end of WWI have been digitized and catalogued at item level.

As part of an ongoing conservation project, approximately 770 files of the College's on-site archives have been re-housed and re-boxed.

Sports

Both the Women's 2nd Eight and the Men's 1st Eight won their oars in May Bumps. Karl Hudspith (PhD student in Clinical Neurosciences) won his third Boat Race.

College Events and Occasions

Over the course of the year the College hosted a series of high profile events. BBC Radio 4 *Any Questions?* was broadcast live from a packed Chapel. After receiving his Honorary Fellowship in a ceremony at Canal House, Lang Lang gave a masterclass to four of the University's best young pianists. We welcomed Robert Peston, Martin Sixsmith and Dr Rowan Williams who spoke to full houses followed by an interview with the Master.

FINANCIAL REVIEW

The College's income from Teaching and Research was £4,700k (2013: £4,464k) and the costs of running the College was £7,518k (2013: £7,001k) giving an operating deficit of £2,818k (2013: £2,537k). The income from legacies, donations and investment income at £8,064k (2013: £2,076k) turns this into a surplus of £5,246k (2013: deficit of £461k). An unrealised gain on the College's investment assets of £1,610k (2013: £2,733k) enabled the College to increase total funds by £6,856k to £39,115k (2013: £32,259k).

Fitch Ratings has affirmed a rating of AA+ for the College.

St Peter's College
Report of the Governing Body
Year ended 31 July 2014

The Governing Body continues to exercise firm control over costs and to seek additional income via existing and new income-generating activities, ranging from our accommodation, conference and events business to our increasing development effort.

The College plans to launch a major fundraising campaign in early 2015.

The College received a very major donation in the name of the Perrodo family from Perenco UK of £5m which will transform some of our teaching facilities and public spaces at the College. The Perrodo donation will fund a new building in Chavasse Quad which will increase our conference and teaching capacity.

We have also received a major legacy from the estate of the late Dr. Arthur Sydney Bailey, Emeritus Fellow, and very generous donations from the Blank family, the Sackler family and Laura Ashley.

We thank all our donors who have contributed throughout the year, and to our Annual Fund and Telethon.

Reserves policy

The College's reserves policy is to maintain sufficient liquidity to enable it to meet its short-term financial obligations in the event of an unexpected revenue shortfall and to allow the College to be managed efficiently and to provide a buffer that would ensure uninterrupted services. This liquidity may be assisted by the investment portfolio.

The College's unrestricted income reserves at the year-end amounted to £2,086k (2013: £1,535k).

The College's restricted funds at the year-end amounted to £8,275k (2013: £3,259k).

Investment policy, objectives and performance

The College's investment objectives are to balance current and future beneficiary needs by:

- maintaining (at least) the value of the investments in real terms;
- producing a consistent and sustainable amount of investment income to support expenditure; and
- delivering these objectives within acceptable levels of risk.

To meet these objectives the College's investments as a whole are managed on a total return basis, maintaining diversification across a range of asset classes in order to produce an appropriate balance between risk and return. In line with this approach, the College statutes allow the College to invest permanent endowments to maximise the related total return and to make available for expenditure each year an appropriate proportion of the unapplied total return.

Under the total return accounting basis, it is the Governing Body's policy to extract as income 4% of the value of the relevant investments. This 4% is calculated on the opening value of the endowment.

FUTURE PLANS

The core elements of the College's current strategic plan are:

- To continue to improve the College's financial position.
- To raise money for the for the Tutorial Fellowship in 20th – 21st Century English

St Peter's College
Report of the Governing Body
Year ended 31 July 2014

- To devote resources to outreach activity to enable the College and the wider University to recruit the best possible students, irrespective of background.
- To effect necessary repairs and improvements of College buildings and infrastructure
- To continue with the implementation of the Perrodo Project, which will transform some of our teaching facilities and public spaces at the College.

The College has no plans to change significantly the size and shape of the Fellowship or student body.

Specific development plans have been agreed for the separate spheres of activity within the College to ensure that the College continues to enhance its ability to provide a first-class education.

Trustees' Responsibilities Statement

The trustees are responsible for preparing the Trustees' Annual Report and the financial statements in accordance with applicable law and regulations.

The Charities Act 2011 requires the trustees to prepare financial statements for each financial year. The trustees have to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). The trustees must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the charity and the group and of the incoming resources and application of resources, including the income and expenditure, of the charity for that period. In preparing these financial statements, the trustees are required to:

- select suitable accounting policies and then apply them consistently;
- observe the methods and principles in the Charities SORP;
- make judgments and accounting estimates that are reasonable and prudent;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the charity will continue in business.

The trustees are responsible for keeping adequate accounting records that are sufficient to show and explain the charity's and group's transactions and disclose with reasonable accuracy at any time the financial position of the charity and the group and enable them to ensure that the financial statements comply with the Charities Act 2011, the Charity (Accounts and Reports) Regulations and the provisions of the trust deed. They are also responsible for safeguarding the assets of the charity and the group and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Approved by the Governing Body on 5th November 2014 and signed on its behalf by:

St Peter's College

Independent Auditor's Report to the members of the Governing Body of St Peter's College

Year ended 31 July 2014

We have audited the financial statements of St Peter's College for the year ended 31 July 2014 which comprise the Statement of Financial Activities, the balance sheet, the Cash Flow Statement and the related notes. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

This report is made solely to the Charity's trustees, as a body, in accordance with section 154 of the Charities Act 2011. Our audit work has been undertaken so that we might state to the Charity's trustees those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Charity and its trustees as a body, for our audit work, for this report, or for the opinions we have formed.

Respective Responsibilities of Trustees and Auditor

As explained more fully in the Trustees' Responsibilities Statement set out on page 13, the trustees are responsible for the preparation of the financial statements which give a true and fair view.

We have been appointed auditor under section 144 of the Charities Act 2011 and report in accordance with regulations made under Section 154 of that Act. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's (APB's) Ethical Standards for Auditors.

Scope of the Audit of the Financial Statements

A description of the scope of an audit of financial statements is provided on the APB's website at www.frc.org.uk/auditscopeukprivate.

Opinion on Financial Statements

In our opinion the financial statements:

- give a true and fair view of the state of the Charity's affairs as at 31 July 2014 and of its incoming resources and application of resources, for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Charities Act 2011.

Matters on which we are Required to Report by Exception

We have nothing to report in respect of the following matters where the Charities Act 2011 requires us to report to you if, in our opinion:

- the information given in the Trustees' Annual Report is inconsistent in any material respect with the financial statements; or
- sufficient accounting records have not been kept; or
- the financial statements are not in agreement with the accounting records and returns; or
- we have not received all the information and explanations we require for our audit.

Grant Thornton UK LLP

Statutory Auditor, Chartered Accountants, OXFORD

Grant Thornton UK LLP is eligible to act as an auditor in terms of section 1212 of the Companies Act 2006.

Date:

1. Scope of the financial statements

The financial statements present the Statement of Financial Activities (SOFA), the College Balance Sheets and the Cash Flow Statement.

2. Basis of accounting

The financial statements have been prepared under the Charities Act 2006 and in accordance with the Statement of Recommended Practice on Accounting and Reporting by Charities issued in 2005 ("the Charities SORP") and applicable accounting standards. The financial statements are drawn up on the historical cost basis of accounting as modified by the revaluation of investment properties and other investments.

3. Incoming resources from fee income, HEFCE support and other charges for services

Fees receivable, HEFCE support and charges for services and use of the premises, less any scholarships, bursaries or other allowances granted by the College, but including contributions received from restricted funds, are accounted for in the period in which the related service is provided.

4. Incoming resources from donations and legacies

Voluntary income is accounted for when the College has entitlement to the funds, the amount can be reliably quantified and there is reasonable certainty of its ultimate receipt.

Voluntary income received for the general purpose of the College is credited to unrestricted funds.

Voluntary income which is subject to specific wishes of the donor is credited to the relevant restricted fund or, where the donation, grant or legacy is required to be held as capital, to the endowment funds. Where donations are received otherwise than in cash, they are valued at the market value of the underlying assets received at the date of receipt.

5. Investment income

Interest on bank balances and fixed interest securities is accounted for in the period to which the interest relates.

Dividend income and similar distributions are accounted for in the period in which they become receivable.

Income from investment properties is accounted for in the period to which the rental income relates.

6. Expenditure

Expenditure is accounted for on an accruals basis. Indirect expenditure is apportioned to expenditure categories based on the estimated amount attributable to that activity in the year, either by reference to staff time or the use made of the underlying assets, as appropriate. Irrecoverable VAT is included with the item of expenditure to which it relates.

Grants awarded are expensed as soon as they become legal or operational commitments.

Governance costs comprise the costs of complying with constitutional and statutory requirements.

7. Leases

Rentals payable under operating leases are charged in the SOFA on a straight line basis over the relevant lease terms.

The cost of the assets held under finance leases is included within fixed assets and depreciation is charged in accordance with the accounting policy for each class of asset concerned. The corresponding capital obligations under these leases are shown as liabilities. The finance charge element of rentals is charged to the Statement of Financial Activities and classified within finance costs as incurred.

8. Tangible fixed assets

Expenditure on the acquisition, construction or enhancement of land together with expenditure on equipment costing more than £5,000 is capitalised and carried in the balance sheet at historical cost.

Other expenditure on equipment incurred in the normal day-to-day running of the College and its subsidiaries is charged to the Statement of Financial Activities as incurred.

9. Depreciation

Depreciation is provided to write off the cost of all relevant tangible fixed assets, less their estimated residual value, in equal annual instalments over their expected useful economic lives as follows:

Freehold land and buildings, including major extensions	50 years, straight line basis
Leasehold land and buildings	50 years or period of lease if shorter
Freehold building improvements	10 - 25 years, straight line basis
IT Equipment	3-7 years, straight line basis
Furniture and other equipment	5 – 10 years straight line

Freehold land is not depreciated. The cost of maintenance is charged in the Statement of Financial Activities in the period in which it is incurred.

In the current financial year the College reviewed the depreciation policy and as a result of this review changed the depreciation method for Furniture and other equipment from a reducing balance to a straight line method over the useful economic life of the assets.

10. Investments

Investment properties are stated at valuation. They are valued using professional advice on the basis of market values as defined in the RICS Appraisal and Valuation Manual. The College policy is to obtain an external professional valuation on a rolling three year basis.

Purchases and sales of investment properties are recognised on exchange of contracts.

Listed investments are valued at their market values as at the balance sheet date.

Gains and losses arising on the valuation of investments are credited or charged to the Statement of Financial Activities and are allocated to the appropriate Fund according to the "ownership" of the underlying assets.

11. Stocks

Stocks are valued at the lower of cost and net realisable value, cost being the purchase price on a first in, first out basis.

12. Foreign currencies

Transactions denominated in foreign currencies during the year are translated at prevailing rates of exchange at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated into sterling at rates applying at the Balance Sheet date or, where there are related forward foreign exchange contracts, at the contract rates. The resulting exchange differences are taken to the Statement of Financial Activities.

13. Total Return investment accounting

The College statutes authorise the College to adopt a 'total return' basis for the investment of its permanent endowment. The College can invest its permanent endowments without regard to the capital/income distinctions of trust law and with discretion to apply any part of the accumulated total return on the investment as income for spending each year. Until this power is exercised, the total return is accumulated as a capital supplement to the preserved ('frozen') value of the permanent endowment.

The Governing Body has decided that it is in the best interests of the College to account for its invested expendable endowment capital in the same way, though there is no legal restriction on the power to spend such capital.

14. Fund accounting

The total funds of the College are allocated to unrestricted, restricted or endowment funds based on the origins of the funds and the terms set by the donors. Endowment funds are further sub-divided into permanent and expendable.

Unrestricted funds can be used in furtherance of the objects of the College at the discretion of the Governing Body. The Governing Body may decide that part of the unrestricted funds shall be used in future for a specific purpose and this will be accounted for by transfers to appropriate designated funds.

Restricted funds comprise gifts, legacies and grants where the donors have earmarked funds for specific purposes. They consist of *either* gifts where the donor has specified that both the capital and any income arising must be used for the purposes stated *or* the income on gifts where the donor has required that the capital be maintained and the income used for specific purposes.

Permanent endowment funds arise where donors specify that the funds should be retained as capital for the permanent benefit of the College. Any income arising from the capital will be accounted for as unrestricted funds unless the donor has placed restrictions on the use of that income, in which case it will be accounted for as a restricted fund.

Expendable endowment funds are similar to permanent endowment in that they have been given, or the College has determined based on the circumstances that they have been given, for the long term benefit of the College. However, the Governing Body may at their discretion determine to spend all or part of the capital.

15. Pension costs

The costs of retirement benefits provided to employees of the College through two multi-employer defined pension schemes are accounted for as if these were defined contribution schemes in accordance with the requirements of FRS 17. The College's contributions to these schemes are charged in the period in which the salaries to which the contributions relate are payable.

The College has substantial long-held historic assets all of which are used in the course of the College's teaching and research activities. These comprise listed buildings on the College site, together with their contents comprising works of art, ancient books and manuscripts and other treasured artefacts. Because of their age and, in many cases, unique nature, reliable historical cost information is not available for these assets and could not be obtained except at disproportionate expense. However, in the opinion of the Trustees the depreciated historical cost of these assets is now immaterial.

In the current financial year the College reviewed the depreciation policy and as a result of this review changed the depreciation method for Furniture and other equipment from a reducing balance to a straight line method over the useful economic life of the assets. This resulted in a one off expense of £240k.

22 TRUSTEES' REMUNERATION

The trustees of the College comprise the governing body, primarily fellows who are teaching and research employees of the College and who sit on governing body by virtue of their employment.

No trustee receives any remuneration for acting as a trustee. However, those trustees who are also employees of the college receive salaries for their work as employees. Where possible, these salaries are paid on external scales and often are joint arrangements with the University of Oxford.

Trustees of the college fall into the following categories, The Master, Professorial Fellows, Official Fellows and any Other Fellows elected to membership of the governing body in accordance with the statutes.

There are also two trustees, the Master and Bursar, who work full time on management and fundraising.

Some trustees, in particular Official Fellows may be eligible for a housing allowance which is disclosed within the salary figures below. Seven trustees live in houses owned jointly with the college, part of the Joint Equity Scheme. No houses were bought or were sold during the year.

Some trustees receive additional allowances for additional work carried out as part time college officers eg Senior Tutor, Dean and Computer Curator. These amounts are included within the remuneration figures below.

The total remuneration and taxable benefits as shown below is £782,903 (2012: £817,342). The total of pension contributions is £97,103 (2012: £108,694).

Five trustees are not employees of the College and do not receive remuneration.

All trustees may eat at common table, as can all other employees who are entitled to meals while working.

Trustee expenses

No fellows were paid travel expenses for travel to trustee or other meetings (for example meetings in London in relation to College investments). The total cost of these expenses in 2013: £381.

Other transactions with trustees

None.

23 PENSION SCHEMES

1. The pension schemes:

The College participates in two principal pension schemes for its staff - the Universities Superannuation Scheme ("the USS") and the University of Oxford Staff Pension Scheme ("the OSPS"). Both schemes are contributory defined benefit schemes (i.e. they provide benefits based on length of service and pensionable salary) and are contracted out from the State Second Pension Scheme. The assets of USS and OSPS are each held in separate trustee-administered funds.

Both schemes are multi-employer schemes and the College is unable to identify its share of the underlying assets and liabilities of each scheme on a consistent and reasonable basis. Therefore, in accordance with the accounting standard FRS17 "Retirement Benefits", the College accounts for the schemes as if they were defined contribution schemes. As a result, the amount charged to the income and expenditure account represents the contributions payable to the schemes in respect of the accounting period.

In the event of the withdrawal of any of the participating employers in USS, the amount of any pension funding shortfall (which cannot be otherwise recovered) in respect of that employer will be spread across the remaining participating employers and reflected in the next actuarial valuation of the scheme.

However, in OSPS, the amount of any pension funding shortfall in respect of any withdrawing participating employer will be charged to that employer.

The College is also contributing to the NEST scheme for certain staff who were ineligible to join USS or OSPS.

2. Actuarial valuations

Qualified actuaries periodically value the schemes. Both USS and OSPS were valued using the "projected unit" method, embracing a market value approach. The resulting levels of contribution take account of actuarial surpluses or deficits in each scheme. The financial assumptions were derived from market conditions prevailing at the valuation date. The results of the latest actuarial valuations and the assumptions which have the most significant effect on the results of the latest valuations and the determination of the contribution levels are shown in the following table.

	USS	OSPS
Date of valuation:	31/03/2011	31/03/2013

Notes:

- a. USS' actuarial valuation as at 31st March 2011 identified a funding deficit of £2,910m. The USS Joint Negotiating Committee has proposed, and USS has implemented with effect from 1st October 2011, a package of changes including the admission of new members into a Career Revalued Benefits section. The changes are required to ensure the future sustainability of the Scheme. Further details about the changes may be reviewed on USS' website, www.uss.co.uk. After allowing for those changes, the actuary established a long term employer contribution rate of 12.6% of total pensionable salaries for the 2011/12 year, reducing over time. USS agreed with Universities UK, on behalf of all the employers participating in the scheme, to address the deficit by continuing the employer contribution rate at the previously agreed rate of 16% of total pensionable salaries (this being the rate paid by the employers since 1st October 2009) until 31st March 2017, following which the employers will pay an additional 2% of salaries in excess of the blended employer future service cost of accruals. The actuary has certified that the additional contribution should eliminate the deficit by 31st March 2021.
- b. As the work on the 2014 valuation for USS is not yet complete the trustee cannot provide the final figure for funding as at 31 March 2014. However, an estimate has been provided using the assumptions to deliver the 2011 actuarial valuation. On that basis the actuary has estimated that the funding level under the scheme specific funding regime will have fallen from 92% at 31 March 2011 to 85% at 31 March 2014. This estimate is based on the results from the valuation at 31 March 2011 allowing primarily for investment returns and changes to market conditions.
- c. OSPS' actuarial valuation as at 31st March 2013 identified a required long-term employer contribution rate of 20.1% of total pensionable salaries, and a funding deficit of £173m. The University of Oxford, on behalf of all the employers participating in the scheme, has agreed with the trustees of OSPS to address this deficit by raising the employer contribution rate in increments of 0.5% of pensionable salary to 23.5%, with this increase being implemented over the next three years to 1 August 2017. The actuary has certified that the additional contribution should eliminate the deficit by 30th June 2026.
- d. USS' actuary has assumed that pension increases will be 3.4% a year for the three years to 31st March 2014, then 2.6% a year thereafter.
- e. As noted above (note a.), the USS employer contribution rate required for future service benefits alone at the date of the valuation was 12.6% of total pensionable salaries. It was agreed that employers should continue to contribute at the previously agreed rate of 16% of total pensionable salaries (this being the rate paid by the employers since 1st October 2009) until 31st March 2017, following which the employers will pay an additional 2% of salaries in excess of the blended employer future service cost of accruals.
- f. As noted above (note c.), the OSPS employer contribution rate required for future service benefits alone at the date of the valuation was 20.1% of total pensionable salaries. It was agreed that employers increase contribution rate by 0.5% each year to 1 August 2017 to 23.5%.

3. Sensitivity of actuarial valuation assumptions:

Surpluses or deficits which arise at future valuations may impact on the College's future contribution commitment. The sensitivities regarding the principal assumptions used to measure the scheme liabilities are set out below:

Assumption	Change in assumption	Impact on scheme liabilities	
		USS	OSPS
Valuation rate of interest	increase/decrease by 0.5%	decrease / increase by £3.2bn	decrease / increase by £63m
Rate of pension increases	increase/decrease by 0.5%	increase / decrease by £2.0bn	increase / decrease by £41m
Rate of salary growth	increase/decrease by 0.5%	increase / decrease by £1.2bn	increase / decrease by £13m
Rate of mortality	more prudent assumption (mortality used at last valuation, rated down by a further year)	increase by £0.8bn	increase by £20m
