Report of the Governing Body

Year ended 31 July 2016

MEMBERS OF THE GOVERNING BODY

The Members of the Governing Body are the College's charity trustees under charity law.

During the year the activities of the Governing Body were principally carried out through five committees.

- (1) Finance and Planning Committee
- (2) Investment Committee
- (3) Academic Committee
- (4) Development Committee (ad hoc)
- (5) Welfare and Equality Committee

In addition, the Fellows' Remuneration Committee (6) considers matters relating to the remuneration of the members of Governing Body.

The members of the Governing Body and those who served in office as Trustees during the year and the membership of the above committees are shown below.

Report of the Governing Body

Year ended 31 July 2016

The Members of the Governing Body present their Annual Report for the year ended 31 July 2016 under the Charities Act 2011 together with the audited financial statements for the year.

REFERENCE AND ADMINISTRATIVE INFORMATION

The Master, Fellows and Scholars of Pembroke College in the University of Oxford, known as Pembroke College, is an independent self-governing charitable institution. It was founded on the initiative of Dr Thomas Clayton, Principal of Broadgates Hall, who secured the necessary endowment left in legacies by Thomas Tesdale and Richard Wightwick to amalgamate several smaller halls sited along the City Wall with the fifteenth-century Broadgates Hall, to form a new College. The original statutes were drawn up by Royal Commission in 1624. The corporation comprises the Master, Fellows and Scholars. The College became a registered charity (no. 1137498) in August 2010.

The College address is Pembroke College, Oxford OX1 1DW; telephone 01865 276444, website www.pmb.ox.ac.uk

The names of all Members of the Governing Body at the date of this report and of those in office during the year, together with details of the College Officers and advisers of the College, are given on pages 2 to 4 of this report.

GOVERNANCE, STRUCTURE AND MANAGEMENT

Governance

The Governing Body of the College comprises the Master and Fellows. This body is constituted and regulated in accordance with the College Statutes, the terms of which are enforceable ultimately by the Visitor, the Chancellor of the University of Oxford. The College Statutes are as made from time to time by order of Her Majesty in Council in accordance with the Royal Charter of 1624, and the Universities of Oxford and Cambridge Act 1923. The Governing Body is responsible for the strategic direction of the College, for its administration and for the management of its finances and assets. It meets regularly under the chairmanship of the Master and is advised by a range of committees which in 2015/16 includes the Finance and Planning Committee, the Academic Committee, the Domestic Committee, the Development Committee and the Investment Committee.

Governing Body

The Governing Body determines the strategic direction of the College and regulates its administration and the management of its finances and assets. It meets regularly under the chairmanship of the Master.

Recruitment and training of Members of the Governing Body

Members of the Governing Body have been informed about their responsibilities as Trustees and are able to attend trustee training and information courses to keep them informed on current issues in the sector and on regulatory requirements.

Remuneration of Members of the Governing Body and Senior College Staff

Members of the Governing Body who are primarily Fellows are teaching and research employees of the College [or University] and receive no remuneration or benefits from their trusteeship of the College. Those trustees that are also employees of the College receive remuneration for their work as employees of the College which is set based on the advice of the College's Fellows' Remuneration Committee, members of which are Fellows not in receipt of remuneration from the College. Where possible, remuneration is set in line with that awarded to the University's academic staff and by reference to the Oxford College median.

The remuneration of senior college staff is set by the Staff Remuneration Committee by reference to the Oxford College Median.

Organisational management

The Governing Body meets nine times a year. The work of developing their policies and overseeing the key activities is also carried out by five Committees, which report to the Governing Body:

Report of the Governing Body

Year ended 31 July 2016

- The Finance and Planning Committee develops and reviews future plans, budgets, performance against budget, forecasts and other relevant information. It now considers matters which were previously overseen by the Domestic and Buildings Committee.
- The Investment Committee develops the investment policy and oversees the performance of the College's investment portfolio.
- The Academic Committee develops and oversees the implementation and management of the College's Academic Policy, covering Admissions and the progression of undergraduates and graduates.
- The Welfare and Equality Committee develops and oversees the College's policies with regard to welfare, equality and diversity, and other related matters.
- The Development Committee meets on an ad hoc basis to consider matters relating to fundraising and alumni relations.

In addition, the Fellows' Remuneration Committee considers and recommends changes to the remuneration of those members of Governing Body who are also employees.

The day-to-day running of the College is mostly delegated to the College Officers, listed on page 4. Major issues are referred to the Governing Body and/or the relevant College committee.

Group structure and relationships

The College administers many special trusts, as detailed in Notes 19 and 20 to the financial statements.

The College also has two wholly owned non-charitable subsidiaries: Pembroke College Enterprises Limited, which undertakes the College's major building works and whose annual profits are donated to the College under the Gift Aid Scheme, and Pembroke College Conferences and Events, a company limited by guarantee, whose profits will also be donated to the College under the Gift Aid Scheme. The trading activities of Pembroke College Conferences and Events primarily comprise revenue from letting of the College facilities when not in use by the College. The subsidiaries' aims, objectives and achievements are covered in the relevant sections of this report.

The College is part of the collegiate University of Oxford. Material interdependencies between the University and the College arise as a consequence of this relationship.

Risk Management

The College is engaged in risk assessment on an ongoing basis. When it is not able to address risk issues using internal resources, the College takes advice from experts external to the College with specialist knowledge. Policies and procedures within the College are reviewed by the relevant College Committees, chaired by the Master or one of the other College Officers. Financial risks are assessed by the Finance and Planning Committee and investment risks are monitored by the Investment Committee. In addition, the Home Bursar and domestic staff heads meet regularly to review health and safety and other related issues. Training courses and other forms of career development are provided to members of staff to enhance their skills in risk-related areas.

During the year the College's Officers undertook a major review of the way in which risks are assessed and managed, with the support of an experienced external facilitator. As a result of this process, the following were identified as the important risks for the College:

- To retain and enhance the College's reputation it is critical to continue to attract undergraduate and graduate students of the highest quality and to support and monitor their performance.
- The College could be exposed to a major catastrophe or security incident.
- Increasingly the College depends on sources of income which do not relate directly to Academic fees and domestic charges. These other sources of income comprise Conference income, Revenue Donations and Investment income.
- To fund its future plans for its development the College will need to continue to raise Capital Donations.

Report of the Governing Body Year ended 31 July 2016

- It remains essential for the College to maintain effective financial controls and robust financial planning for the future.
- The College has to comply with a range of contractual and regulatory requirements across the range of its
 activities.
- Post-Brexit there are uncertainties which might affect the College's ability to attract non-UK students and academics and the future of some research funding is unclear. Conversely if the fall in sterling is sustained into the medium term this should be beneficial in attracting non-UK business.

No specific risks were assessed to be in the highly-likely category and the review confirmed that the mitigation measures in place are satisfactory. However, as a result of this review, a number of further measures will be taken during the current financial year to improve further the College's resilience. An interim review will also be undertaken mid-year.

In view of the above, the Governing Body, which has ultimate responsibility for managing any risks faced by the College, has given consideration to the major risks to which the College and its subsidiaries are exposed and has concluded that adequate systems are in place to manage these risks. It is recognised that systems can provide only reasonable but not absolute assurance that major risks have been managed.

OBJECTIVES AND ACTIVITIES

Charitable Objects and Aims

The College's objects are to advance education, scholarship and research through the provision of a college in the University of Oxford.

The Governing Body has considered the Charity Commission's guidance on public benefit and in keeping with its objects, the College's aims for public benefit are:

- to promote excellence in undergraduate education, including pastoral and academic support.
- to provide pastoral and academic support to graduate students.
- to enable students to study at Oxford University, irrespective of their personal background and financial circumstances.
- to promote excellence in research on the part of the Fellows, Stipendiary Lecturers and other College members.

In recent years the College has benefitted from a detailed approach to budgeting and medium to long term planning, During 2016/17 the College intends to develop its next strategic plan for the period 2017-26.

The aims set for the College's subsidiaries are to help finance the achievement of the College's aims as above.

Activities and objectives of the College

The College's activities are focused on furthering its stated objects and aims for the public benefit.

Public Benefit

The College advances public learning by providing higher education for undergraduate and postgraduate students within Oxford University, and by supporting the pursuit of publicly disseminated research. In 2015/16 the College had 396 undergraduates (including 31 visiting students), 227 graduates, and 32 Fellows who had contractual obligations to teaching and to research.

The College provides public benefit by offering higher education to its undergraduates, mostly through the tutorial system which provides the opportunity to meet with a tutor on a weekly basis during term time. In addition, the College provides classes, seminars and other forms of teaching, as appropriate, in conjunction with the University's departments. To support student learning, the College also provides the use of the College's library

Report of the Governing Body Year ended 31 July 2016

and accommodation, and actively promotes the wider cultural and social education of its students through music, drama, sports, careers advice and in other ways.

The College also advances research in a range of disciplines by employing academics who have a contractual obligation to undertake published research and providing them with a supportive academic atmosphere, including the provision of research grants, library and computer facilities, office accommodation and meals. The research activities of the majority of College fellows have been audited by the National Research Assessment Exercise; that research is disseminated through published papers, books, websites and lectures. The College supports the research of academics who, at the beginning of their careers, have already shown outstanding promise in their chosen field of research by supporting six Junior Research Fellowships.

Research is also supported through lectures and the provision of facilities to research centres and programmes.

The College offers undergraduate places on the basis of academic merit. The College aims to attract students who are most able to benefit from an Oxford education regardless of sex, gender, income, ethnic origin, religion, previous education opportunity or disability, and actively works to recruit students from non-traditional backgrounds.

During the academic year 2015/16, financial support was available to undergraduates from the UK/EU to assist them with the costs of tuition fees and living costs whilst at the College. In addition to student loans provided by the Student Loans Company which are available to undergraduates from within the UK/EU. Oxford Opportunity Bursaries, Oxford Bursaries and Moritz-Heyman Scholarships are available to undergraduates from lower income households at the College. In the 2015/16 academic year 77 students, or about 24% of the College's Home/EU undergraduates, received bursaries which in total amounted to £224k; of those, 36 also benefitted from fee waivers amounting to £120k. Of the students who received bursaries, 40 (52%) were from households with income of £25k or less.

Graduates at the College form an important part of the academic community. Every graduate student is assigned a College Graduate Adviser who provides academic and pastoral support. Funding is available for some graduate studies and for the most able there are a number of scholarship funds available, administered by the University, the College or other sources.

The College awards a number of scholarships and exhibitions each year to undergraduates on course, based on their academic performance. In 2015/16 there were 71 such scholarships and 17 exhibitions awarded to undergraduates. 49 scholarships were awarded to graduates (including five senior scholarships). A number of academic prizes are available to undergraduates and graduates at the College; awarded on the basis of academic excellence. These scholarships, exhibitions and prizes serve to encourage academic endeavour at the College. The College also provides travel grants to meet costs involved in undertaking research.

The Governing Body of Pembroke College has considered the processes in place during the financial year ended 31 July 2016 and is satisfied that, with regard to public and publicly accountable funds received from the University of Oxford (out of grants from HEFCE and student fees) for the year ended 31 July 2016, the arrangements for achieving economy, efficiency, effectiveness and value for money were appropriate. In making this confirmation, members of the Governing Body are cognisant of their obligations as Charity Trustees to ensure that funds are correctly applied, in line with the objects of the College.

ACHIEVEMENTS AND PERFORMANCE

During the year, there were several changes to the composition of the College's Governing Body. At the start of the 2015/16 academic year, Ms Nancy Braithwaite was appointed as Academic Director, replacing Professor Mark Fricker who remains as a Fellow by Special Election. Professor Damian Rössler was appointed as a Fellow and Tutor in Pure Mathematics, Professor Henrietta Harrison as the Stanley Ho Fellow and Tutor in Chinese and Professor Anandi Mani as a Tutor in Behavioural Science and a Fellow by Special Election. Professor Jeffrey Ketland stepped down from his position as Fellow in Philosophy at the end of the academic year.

Report of the Governing Body Year ended 31 July 2016

Although too numerous to list all the successes of our Fellows, there were a number of notable achievements. Professor Andy Baldwin was awarded the 2016 Prize for Excellent Contribution to Magnetic Resonance, Clive Siviour received the 2016 JSA Young Investigator Lecturer Award. Oxbotica, the spin out company co-founded by Professor Ingmar Posner launched ground breaking driverless vehicle software (Selenium) which is being trialled in Milton Keynes. Professor Hannah Smithson and her team won the Vice-Chancellor's Public Engagement with Research Award for their project "The Ordered Universe".

The College continued to consolidate the way in which its new buildings serve its members and visitors. The significant improvements to the Porters' Lodge, which were completed in 2015 have made the College even more welcoming and accessible to all, and it was pleasing to note that the project received an award from the Oxford Preservation Trust. Elsewhere on the operational side, changes were made to improve the organisation of the Catering Team and further work was undertaken at the College's Annexe as part of a longer term refurbishment programme for that building.

The number of students at the start of the 2015/16 academic year was as follows.

396 undergraduates (including 31 visiting students)

227 graduates

This year, Pembroke students achieved excellent examination results, and 36 finalists obtained first class degrees, the highest ever number at the College. There were also a number of prestigious University prizes awarded for excellent performance across subjects, including Modern Languages, Economics and Management, Chinese and Medicine, where a Pembroke student won a "Congratulatory First". The College was ranked 14th in the Norrington Table, which was a significant rise and the score of 72.5 is the highest the College has ever achieved.

The College also continued to pursue its strategy to support potential applicants from disadvantaged backgrounds. OxNet is an Access approach pioneered by Pembroke to great success, placing Outreach Hubs in schools across the country. These Hubs run academically-intensive activities for young people at a local level, to help better-prepare these pupils to make successful applications to competitive universities. Building on the success of Hubs already established in West and East London and in the Manchester area, there are now plans to expand into the North-East in Sunderland.

FINANCIAL REVIEW

These financial statements present the accounts of Pembroke College and its subsidiaries and include all operational income and expenditure, donations and investment income and all the assets and liabilities of the College.

The Consolidated Statement of Financial Activities shows net incoming resources of £869k (2015 - £375k). After adding investment gains of £1,420k (2015 - £2,746k) the net increase in funds for the year was £2,289k (2015 - £3,121k).

Total incoming resources increased slightly to £11,991k (2015 - £11,181k). This increase of £810k was primarily due to donation income which increased by £470k, investment income which increased by £179k and teaching, research and residential income which increased by £165k.

Total resources expended were £11,122k, an increase of £316k.

In the year, the College raised £810k as restricted funds. In addition, unrestricted donations amounted to £552k. A further £1,030k was donated to endowment funds including a single gift of £750k (including gift aid) to endow the Stanion graduate scholarship.

The Total Funds of the College rose in the year to £75,021k.

Overall this represents a very satisfactory position as the College has continued to consolidate its financial and operational position following the completion of the new buildings in 2013. At the same time there are financial issues to be addressed as employers' National Insurance and Pension costs have risen and the future level of funding for research is uncertain.

Report of the Governing Body Year ended 31 July 2016

Reserves policy

The College's reserves policy is to maintain sufficient free reserves to enable it to meet its short-term financial obligations in the event of an unexpected revenue shortfall and to allow the College to be managed efficiently and to provide a buffer that would ensure uninterrupted services.

Total funds of the College and its subsidiaries at the year-end amounted to £75,021k (2015: £72,732k). This includes endowment capital of £49,087k, of which £36,309k is permanent endowment and £12,778k is expendable endowment, and unspent restricted income funds totalling £2,933k. Free reserves at the year-end amounted to £4,089k (2015: £3,783k), representing retained unrestricted income reserves excluding an amount of £18,912k for the book value of tangible fixed assets less associated funding arrangements.

Designated reserves at the year-end totalled £1,161k and principally comprised £461k for the Rokos Fellowship in Physics and £458k for the Theology Fellowship so these Fellowships when taken with their Endowed Funds were both fully funded for the College part of the appointment.

The Trustees are of the opinion that free reserves of £5,784k together with expendable endowment of £12,778k provide a sufficient buffer to deal with future events.

Investment policy, objectives and performance

The College's investment objectives are to balance current and future needs by:

- maintaining (at least) the value of the investments in real terms;
- producing a consistent and sustainable amount to support expenditure; and
- delivering these objectives within acceptable levels of risk.

To meet these objectives the College's investments as a whole are managed on a total return basis, maintaining diversification across a range of asset classes in order to produce an appropriate balance between risk and return. In line with this approach, the College statutes allow the College to invest permanent endowment to maximise the related total return and to make available for expenditure each year an appropriate proportion of the unapplied total return (see below).

The investment strategy, policy and performance are monitored by the Investment Committee. At the year end, the College's long term investments, combining the securities and property investments, totalled £54,550k. The overall total investment return was 5.7% over the year which compared to the College's strategic benchmark return of 5.4% (RPI + 3.5%).

The carrying value of the preserved permanent capital and the amount of any unapplied total return available for expenditure was taken as the open market values of these funds as at 31 July 2002 together with the original gift value of all subsequent endowment received.

Under the total return accounting basis, it is the Governing Body's policy to draw down as income 3.5% (plus costs) of the value of the relevant investments. However to smooth and moderate the amounts withdrawn this 3.5% is calculated on the average of the year end values in each of the last three years.

In line with this policy, the equivalent of 3.5% of the average three-year end opening value of the property, securities and other investments, was drawn down as income on the total return basis in the year. The Governing Body will keep the level drawn down under review to balance the current and future needs and interests of the College.

FUTURE PLANS

The strategic planning work currently being undertaken is focussing on the future size and shape of the College's student body, the way in which the College can continue to support the research activities undertaken by its Fellows, Graduate students, and dedicated Research Centres. Options for maintaining and improving the College's estate are also under consideration. The financial modelling in support of the Strategic Plan will focus on the need to ensure that the College continues to achieve a financial balance in pursuing its normal activities whilst ensuring that any new investments are funded.

Report of the Governing Body Year ended 31 July 2016

STATEMENT OF ACCOUNTING AND REPORTING RESPONSIBILITIES

The Governing Body is responsible for preparing the Report of the Governing Body and the financial statements in accordance with applicable law and regulations.

Charity law requires the Governing Body to prepare financial statements for each financial year. Under that law the Governing Body have prepared the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards) and applicable law), including Financial Reporting Standard 102: The Financial Reporting Standard Applicable in the UK and Republic of Ireland (FRS 102).

Under charity law the Governing Body must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the College and of its net incoming or outgoing resources for that period. In preparing these financial statements, the Governing Body is required to:

- select the most suitable accounting policies and then apply them consistently;
- make judgments and accounting estimates that are reasonable and prudent;
- state whether applicable accounting standards, including FRS 102, have been followed, subject to any
 material departures disclosed and explained in the financial statements;
- state whether a Statement of Recommended Practice (SORP) applies and has been followed, subject to
 any material departures which are explained in the financial statements.
- prepare the financial statements on a going concern basis unless it is inappropriate to presume that the College will continue to operate.

The Governing Body is responsible for keeping proper accounting records that are sufficient to show and explain the College's transactions and disclose with reasonable accuracy at any time the financial position of the College and enable them to ensure that the financial statements comply with the Charities Act 2011. They are also responsible for safeguarding the assets of the College and ensuring their proper application under charity law and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Approved by the Governing Body on 30 November 2016 and signed on its behalf by:

L. Brindley

Master

Independent Auditor's Report to the Members of the Governing Body of Pembroke College

We have audited the financial statements of Pembroke College for the year ended 31 July 2016 which comprise the Group Statement of Financial Activities, the Group and Charity Balance Sheets, the Group Cash Flow Statement and the related notes numbered 1 to 33.

The financial reporting framework that has been applied in their preparation is applicable law and FRS 102, The Financial Reporting Standard applicable in the UK and Republic of Ireland.

This report is made solely to the charity's trustees as a body, in accordance with Section 154 of the Charities Act 2011. Our audit work has been undertaken so that we might state to the charity's trustees those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the charity and the charity's trustees as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of trustees and auditor

As explained more fully in the Statement of Trustees' Responsibilities, the trustees are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view.

We have been appointed as auditor under section 151 of the Charities Act 2011 and report in accordance with regulations made under section 154 of that Act.

Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the charity's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the trustees; and the overall presentation of the financial statements.

In addition, we read all the financial and non-financial information in the Report of the Governing Body to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

Opinion on financial statements

In our opinion the financial statements:

- give a true and fair view of the state of the group's and the charity's affairs as at 31 July 2016 and of the group's incoming resources and application of resources for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Charities Act 2011.

Independent Auditor's Report to the Members of the Governing Body of Pembroke College

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Charities Act 2011 requires us to report to you if, in our opinion:

- the information given in the Trustees Annual Report is inconsistent in any material respect with the financial statements; or
- sufficient accounting records have not been kept by the parent charity; or
- the financial statements are not in agreement with the accounting records and returns; or
- we have not received all the information and explanations we require for our audit.

Crowe Clark Whitehill LLP Statutory Auditor London

Date: 30 November 2016

Crowe Clark Whitehill LLP is eligible to act as an auditor in terms of section 1212 of the Companies Act 2006.

Statement of Accounting Policies

Year ended 31 July 2016

1. Scope of the financial statements

The financial statements present the Consolidated Statement of Financial Activities (SOFA), the Consolidated and College Balance Sheets and the Consolidated Cash Flow Statement of Cash Flows comprising the consolidation of the College and with its wholly owned subsidiaries Pembroke College Enterprises Limited. The subsidiaries have been consolidated from the date of their formation being the date from which the College has exercised control through voting rights in the subsidiaries and Pembroke College Conferences and Events. No separate SOFA has been presented for the College alone as permitted by the Charity Commission on a concessionary basis for the filing of consolidated financial statements. A summary of the results and financial position of the charity and each of its material subsidiaries for the reporting year are in note 13.

2. Basis of accounting

The College's individual and consolidated financial statements have been prepared in accordance with United Kingdom Accounting Standards, in particular 'FRS 102: The Financial Reporting Standard applicable in the UK and Republic of Ireland' (FRS 102).

The College is a public benefit entity for the purposes of FRS 102 and a registered charity. The College has therefore also prepared its individual and consolidated financial statements in accordance with 'The Statement of Recommended Practice applicable to charities preparing their financial statements in accordance with FRS 102' (The Charities SORP (FRS 102)).

The College has adopted FRS 102 for the first time when preparing these financial statements. The transition date to FRS 102 was 1 August 2014 and the last financial statements prepared under the previous financial reporting framework were prepared for the year ended 31 July 2015. An explanation and reconciliation of how the transition to FRS 102 has affected the reported financial position and financial performance is provided in note 33.

The accounts (financial statements) have been prepared to give a 'true and fair' view and have departed from the Charities (Accounts and Reports) Regulations 2008 only to the extent required to provide a 'true and fair view'. This departure has involved following the Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) issued on 16 July 2014 rather than the previous Statement of Recommended Practice: Accounting and Reporting by Charities which was effective from 1 April 2005 but which has since been withdrawn.

The financial statements have been prepared on a going concern basis and on the historical cost basis, except for the measurement of investments and certain financial assets and liabilities at fair value with movements in value reported within the Statement of Financial Activities (SOFA). The principal accounting policies adopted are set out below and have been applied consistently throughout the year.

3. Accounting judgements and estimation uncertainty

In preparing financial statements it is necessary to make certain judgements, estimates and assumptions that affect the amounts recognised in the financial statements. The following judgements and estimates are considered by the Governing Body to have most significant effect on amounts recognised in the financial statements.

The Governing Body, in applying the accounting policies, have included an estimate for the College's share of the USS and OSPS pension scheme liabilities in relation to funding past service deficits – this involves a number of estimates as disclosed in note 23. The College also includes an estimate of the useful economic life of its buildings. This is reassessed annually.

Leases on equipment are classified as either operating or finance leases which require an evaluation of the terms and conditions of each lease to determine whether the College retains or acquires the significant risks and rewards of ownership of the leased assets and as a result recognises an asset and a liability for future payments relating to the capital element of the lease in the balance sheet.

Statement of Accounting Policies

Year ended 31 July 2016

The College carries investment property at fair value in the balance sheet, with changes in fair value being recognised in the income and expenditure section of the SOFA. Independent valuations are obtained to determine fair value at the balance sheet date – this involves a number of estimates.

4. Income recognition

All income is recognised once the College has entitlement to the income, the economic benefit is probable and the amount can be reliably measured.

a. Income from fees, HEFCE support and other charges for services

Fees receivable, less any scholarships, bursaries or other allowances granted from the College unrestricted funds, HEFCE support and charges for services and use of the premises are recognised in the period in which the related service is provided.

b. Income from donations, grants and legacies

Donations and grants that do not impose specific future performance-related or other specific conditions are recognised on the date on which the charity has entitlement to the resource, the amount can be reliably measured and the economic benefit to the College of the donation or grant is probable. Donations and grants subject to performance-related conditions are recognised as and when those conditions are met. Donations and grants subject to other specific conditions are recognised as those conditions are met or their fulfilment is wholly within the control of the College and it is probable that the specified conditions will be met.

Legacies are recognised following grant of probate and once the College has received sufficient information from the executor(s) of the deceased's estate to be satisfied that the gift can be reliably measured and that the economic benefit to the College is probable.

Donations, grants and legacies accruing for the general purposes of the College are credited to unrestricted funds.

Donations, grants and legacies which are subject to conditions as to their use imposed by the donor or set by the terms of an appeal are credited to the relevant restricted fund or, where the donation, grant or legacy is required to be held as capital, to the endowment funds. Where donations are received in kind (as distinct from cash or other monetary assets), they are measured at the fair value of those assets at the date of the gift.

c. Investment income

Interest on bank balances is accounted for on an accrual basis with interest recognised in the period to which the interest relates.

Income from fixed interest debt securities is recognised using the effective interest rate method.

Dividend income and similar distributions are recognised on the date the share interest becomes exdividend or when the right to the dividend can be established.

Income from investment properties is recognised in the period to which the rental income relates.

5. Expenditure

Expenditure is accounted for on an accruals basis. A liability and related expenditure is recognised when a legal or constructive obligation commits the College to expenditure that will probably require settlement, the amount of which can be reliably measured or estimated.

Grants awarded that are not performance-related are charged as an expense as soon as a legal or constructive obligation for their payment arises. Grants subject to performance-related conditions are expensed as the specified conditions of the grant are met.

Statement of Accounting Policies

Year ended 31 July 2016

All expenditure including support costs and governance costs are allocated or apportioned to the applicable expenditure categories in the Statement of Financial Activities (the SOFA).

Support costs which includes governance costs (costs of complying with constitutional and statutory requirements) and other indirect expenditure are apportioned to expenditure categories in the SOFA based on the estimated amount attributable to that activity in the year, either by reference to staff time or the use made of the underlying assets, as appropriate. Irrecoverable VAT is included with the item of expenditure to which it relates.

Grants awarded are expensed as soon as they become legal or operational commitments.

Intra-group sales and charges between the College and its subsidiaries are excluded from trading income and expenditure in the consolidated financial statements.

6. Leases

Leases of assets that transfer substantially all the risks and rewards of ownership are classified as finance leases. The costs of the assets held under finance leases are included within fixed assets and depreciation is charged over the shorter of the lease term and the assets' useful lives. Assets are assessed for impairment at each reporting date. The corresponding capital obligations under these leases are shown as liabilities and recognised at the lower of the fair value of the leased assets and the present value of the minimum lease payments. Lease payments are apportioned between capital repayment and finance charges in the SOFA so as to achieve a constant rate of interest on the remaining balance of the liability.

Leases that do not transfer all the risks and rewards of ownership are classified as operating leases. Rentals payable under operating leases are charged in the SOFA on a straight line basis over the relevant lease terms. Any lease incentives are recognised over the lease term on a straight line basis.

7. Tangible fixed assets

Land is stated at cost. Buildings and equipment are stated at cost less accumulated depreciation and any accumulated impairment losses.

Expenditure on the acquisition or enhancement of land and on the acquisition, construction and enhancement of buildings which is directly attributable to bringing the asset to its working condition for its intended use and amounting to more than £30,000 together with expenditure on equipment costing more than £30,000 is capitalised.

Where a part of a building or equipment is replaced and the costs capitalised, the carrying value of those parts replaced is derecognised and expensed in the SOFA.

Other expenditure on equipment incurred in the normal day-to-day running of the College and its subsidiaries is charged to the SOFA as incurred.

8. Depreciation

Depreciation is provided to write off the cost of all tangible fixed assets, less their estimated residual value, in equal annual instalments over their expected useful economic lives as follows:

Freehold properties, including major extensions

50 years

Building improvements

10 - 30 years

Equipment

5 - 15 years

Freehold land is not depreciated. The cost of maintenance is charged in the SOFA in the period in which it is incurred.

Statement of Accounting Policies

Year ended 31 July 2016

At the end of each reporting period, the residual values and useful lives of assets are reviewed and adjusted if necessary. In addition, if events or change in circumstances indicate that the carrying value may not be recoverable then the carrying values of tangible fixed assets are reviewed for impairment.

9. Heritage Assets

The College has no assets which it considers should be classified as Heritage Assets

10. Investments

Investment properties are initially recognised at their cost and subsequently measured at their fair value (market value) at each reporting date. Purchases and sales of investment properties are recognised on exchange of contracts.

Listed investments are initially measured at their cost and subsequently measured at their fair value at each reporting date. Fair value is based on their quoted price at the balance sheet date without deduction of the estimated future selling costs.

Investments such as hedge funds and private equity funds which have no readily identifiable market value are initially measured at their costs and subsequently measured at their fair value at each reporting date without deduction of the estimated future selling costs. Fair value is based on the most recent valuations available from their respective fund managers.

Changes in fair value and gains and losses arising on the disposal of investments are credited or charged to the income or expenditure section of the SOFA as 'gains or losses on investments' and are allocated to the fund holding or disposing of the relevant investment.

11. Other financial instruments

a. Cash and cash equivalents

Cash and cash equivalents include cash at banks and in hand and short term deposits with a maturity date of three months or less.

b. Debtors and creditors

Debtors and creditors receivable or payable within one year and Fellows' Loans payable outwith one year of the reporting date are carried at their transaction price.

12. Stocks

Stocks are valued at the lower of cost and net realisable value, cost being the purchase price on a first in, first out basis.

13. Foreign currencies

The functional and presentation currency of the College and its subsidiaries is the pound sterling.

Transactions denominated in foreign currencies during the year are translated into pounds sterling using the spot exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated into pounds sterling at the rates applying at the reporting date.

Foreign exchange gains and losses resulting from the settlement of transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at the exchange rates at the reporting date are recognised in the income and expenditure section of the SOFA [except when deferred and initially credited or charged in 'other recognised gains and losses' as qualifying cash flow hedges].

14. Total return investment accounting

The College statutes authorise the College to adopt a 'total return' basis for the investment of its permanent endowment. The College can invest its permanent endowments without regard to the capital/income distinctions of standard trust law and with discretion to apply any part of the accumulated

Statement of Accounting Policies

Year ended 31 July 2016

total return on the investment as income for spending each year. Until this power is exercised, the total return is accumulated as a component of the endowment known as the unapplied total return that can be either retained for investment or released to income at the discretion of the Governing Body.

15. Fund accounting

The total funds of the College and its subsidiaries are allocated to unrestricted, restricted or endowment funds based on the terms set by the donors or set by the terms of an appeal. Endowment funds are further sub-divided into permanent and expendable.

Unrestricted funds can be used in furtherance of the objects of the College at the discretion of the Governing Body. The Governing Body may decide that part of the unrestricted funds shall be used in future for a specific purpose and this will be accounted for by transfers to appropriate designated funds.

Restricted funds comprise gifts, legacies and grants where the donors have specified that the funds are to be used for particular purposes of the College. They consist of either gifts where the donor has specified that both the capital and any income arising must be used for the purposes given or the income on gifts where the donor has required that the capital be maintained and the income used for specific purposes.

Permanent endowment funds arise where donors specify that the funds should be retained as capital for the permanent benefit of the College. Any part of the total return arising from the capital that is allocated to income will be accounted for as unrestricted funds unless the donor has placed restrictions on the use of that income, in which case it will be accounted for as a restricted fund.

Expendable endowment funds are similar to permanent endowment in that they have been given, or the College has determined based on the circumstances that they have been given, for the long term benefit of the College. However, the Governing Body may at their discretion determine to spend all or part of the capital.

16. Pension costs

The costs of retirement benefits provided to employees of the College through two multi-employer defined benefit pension schemes are accounted for as if these were defined contribution schemes as information is not available to use defined benefit accounting in accordance with the requirements of FRS 102. The College's contributions to these schemes are recognised as a liability and an expense in the period in which the salaries to which the contributions relate are payable.

In addition, a liability is recognised at the balance sheet date for the discounted value of the expected future contribution payments under the agreements with these multi-employer schemes to fund the past service deficits.

The College also operates defined contribution pension schemes and contributes to the personal pension arrangements of certain employees. Contributions to these arrangements are charged to the SOFA in the period in which they are payable.

The above analysis includes £2,432k received from Oxford University from publicly accountable funds under the CFF Scheme (2015: £2,398k).

Under the terms of the undergraduate student support package offered by Oxford University to students from lower income households, the college share of the fees waived amounted to £33k (2015: £39k). These are not included in the fee income reported above.

The 2015 resources expended of £10806k respesented £9586k from unrestricted funds, £971k from restricted funds and £249k from endowed funds.

The College is liable to be assessed for Contribution under the provisions of Statute XV of the University of Oxford. The Contribution Fund is used to make grants and loans to colleges on the basis of need. Contributions are calculated annually in accordance with regulations made by the Council of the University of Oxford.

The teaching and research costs include College Contribution payable of £-5k (2015 - £16k).

| Other finance charges | 265 | 313 | | | 578 |
| Governance costs | 2 | 24 | | | 26 |
| | 834 | 2,609 | | | 3,443 |
| | | | | | 0,110 |

Financial and domestic administration, IT, human resources and governance costs are attributed according to the estimated staff time spent on each activity. Depreciation costs and profit or loss on disposal of fixed assets are attributed according to the use made of the underlying assets. Interest and other finance charges are attributed according to the purpose of the related financing.

| | 2016 | 2015 |
|--|----------------|------------------|
| | £'000 | £'000 |
| Governance costs comprise: | | |
| Auditor's remuneration - audit services | 15 | 17 |
| Auditor's remuneration - assurance services other than audit | 0=0 | - |
| Auditor's remuneration - tax advisory services | 7 | 5 |
| Auditor's remuneration - other services | 1 | (= |
| Legal and other fees on constitutional matters | 9 . | (2) |
| Other governance costs | \$ \$ | 2 |
| | 23 | 24 |

No amount has been included in governance costs for the direct employment costs or reimbursed expenses of the College Fellows on the basis that these payments relate to the Fellows involvement in the College's charitable activities. Details of the remuneration of the Fellows and their reimbursed expenses are included as a separate note within these financial statements.

The College has substantial long-held historic assets all of which are used in the course of the College's teaching and research activities. These comprise listed buildings on the College site, together with their contents comprising works of art, ancient books and manuscripts and other treasured artefacts. Because of their age and, in many cases, unique nature, reliable historical cost information is not available for these assets and could not be obtained except at disproportionate expense. However, in the opinion of the Trustees the depreciated historical cost of these assets is now immaterial.

13 PARENT AND SUBSIDIARY UNDERTAKINGS

The College holds 100% of the issued share capital in Pembroke College Conference and Events (PCCE), a company providing conference and other event services on the College premises, and 100% of the issued share capital in Pembroke College Enterprises Limited (PCEL), a company providing design and build construction services to the College.

The results and their assets and liabilities of the parent and subsidiaries at the year end were as follows.

| | Parent College | Pembroke College Enterprises | Pembroke College Coferences and |
|------------------------------------|-------------------|------------------------------------|---------------------------------------|
| | | Limited | Events |
| | £'000 | £'000 | £'000 |
| Income | 12,281 | <u>©</u> | 1,455 |
| Expenditure | 9,997 | (7) | 1,132 |
| Donation to College under gift aid | 0 | 4 | 322 |
| Result for the year | 2,284 | 3 | - |
| Total assets | 91,448 | 255 | 1,276 |
| Total liabilities | (16,252) | (255) | (1,276) |
| Net funds at the end of year | 75,196 | | |

During the year an amount of £1,106k (2015: £1,122k) was paid by the College to PCCE in respect of costs incurred by the College on behalf of the subsidiary inculding staff costs, catering costs and a share of other running costs and overheads. At the year end, a balance of £782k (2015: £1,741k) was owed by PCCE to Pembroke College. At the year ene, a balance of £255k (2015: £263k) was owed by the College to PCEL.

14 STATEMENT OF INVESTMENT TOTAL RETURN

The Trustees have adopted a duly authorised policy of total return accounting for the College investment returns with effect from 1 August 2010. The investment return to be applied as [income is calculated as 3.5% (2015; 3.5%) of the average of the year-end values of the relevant investments in each of the last 3 years.] The preserved (frozen) value of the invested endowment capital represents its open market value at 31 July 2002 together with all subsequent endowments valued at date of gift.

The College had a £20m facility is in the form of a revolving credit facility from Santander, available until 19 February 2014 by when the balance had to be converted to one or more long term loans.

On the 20 July 2012, the College converted £12.8m into a fixed term loan at 4.65%, with straight line amortisation based on a 33 year period with the balance outstanding (equivalent to 5 years repayments) to be repaid on 19 July 2040. This was the first conversion to a fixed term loan within the £20m loan facility.

On 19 February 2014 an additional £3m was borrowed under the facility as a fixed term loan with stright line amortisation based on a 33 year period with the balance outstanding (equivalent to 5 years repayments) to be repaid on 18 February 2042. Interest is payable on the £3m loan at a margin of 0.55% over the relevant agreed LIBOR rate.

On the 20 April 2016 £500k of the facility was fixed for a 10 year period at a fixed rate of 2.21%

22 TRUSTEES' REMUNERATION

The Fellows who are the Trustees of the College for the purposes of charity law receive no remuneration for acting as charity trustees but are paid by either or both of the University and the College for the academic services they provide to the College.

Trustees of the college fall into the following categories: Head of House Professorial Fellow Official Fellow Fellow by Special Election Research Fellow

No trustee receives any remuneration for acting as a trustee. However, those trustees who are also employees of the college receive salaries for their work as employees. These salaries are paid on external academic and academic-related scales and often are joint arrangements with the University of Oxford.

All Official Fellows are eligible for a Housing Allowance, which is disclosed within the salary figures below.

The College has a Remuneration Committee which makes recommendations to Governing Body on pay and benefits which are outside of external scales. The composition of the Remuneration Committee is set out in pp 2-4 of the section, Governing Body, Officers and Advisers.

¹⁰ trustees are not employees of the college and do not receive remuneration.

All trustees may eat at common table, as can all other employees who are entitled to meals while working.

Pembroke College Notes to the financial statements For the year ended 31 July 2016

Other transactions with trustees

Fellows also receive reimbursement of personal expenses necessarily incurred in connection with their services to the College as Trustees. During the year a total of £75 (2015 - £87) was reimbursed to one (2015 - two) of the Trustees for travel to Investment Committee meetings in London.

See also note 30 Related Party Transactions

Key management remuneration

The total remuneration paid to key management was £386k (2015; £343k).

Key management are considered to be the College Officers as set out in the Report of the Governing Body

23 PENSION SCHEMES

The College participates in the Universities Superannuation Scheme ("the USS") and the University of Oxford Staff Pension Scheme ("the OSPS") on behalf its fellows and staff. Both schemes are contributory multi-employer defined benefit schemes with the assets being held in separate trustee-administered funds.

Insufficient information is available to enable the College to use defined benefit accounting for these schemes and, in accordance with the provisions of FRS 102, both schemes are accounted for as if they were defined contribution schemes.

Both schemes have put in place agreements for additional contributions to fund their past service deficits. In accordance with the provisions of FRS 102 the College has recognised a liability for the future contributions that it estimates will be payable as a result of these deficit funding agreements.

Universities Superannuation Scheme

The pension charge for the year includes £358k (2015 - £414k) in relation to the USS. This represents contributions of £292k payable to the USS as adjusted by the change in the deficit funding liability between the opening and closing balance sheet dates of £66k.

The latest formal actuarial valuation of the USS was carried out as at 31 March 2014 to meet the requirements of the Pensions Act 2004, and was published in July 2015. This valuation showed the scheme assets as being sufficient to cover 89% of its liabilities on its technical provisions basis with an overall shortfall of £5.3bn. In July 2015, a number of changes to the benefits provided by the Scheme were agreed to come into force on 1 April 2016 or, for certain benefit changes, as soon as practicable after this date.

Based on the assumptions made in the 31 March 2014 actuarial valuation and taking account of the agreed scheme changes, the employers' total contributions for the period from 1 April 2016 to 31 March 2031 was set at 18% p.a. of salaries. This resulted in the employer deficit contributions from 1 April 2016 being initially 2.5% of salaries. However, following the introduction of the salary threshold and defined contribution section between April and October 2016, for the remaining period to 31 March 2031 the deficit funding contributions were reduced to 2.1% of salaries with a future service employer contribution rate of 15.9%.

A subsequent interim actuarial report as at 31 March 2015 issued in September 2015 has reported an increased deficit of £8.2bn and a funding level of 86%. The subsequent interim actuarial report as at 31 March 2015 included a reassessment of the future service employer contribution rate and indicated that the future service rates have increased substantially to 21% on account of lower prevailing gilt yields compared with the 2014 valuation market conditions. No changes to the contribution rates being paid have been made as a result of this interim actuarial report. A full review of the employers' contributions will be completed no later than following the next valuation, which is due to take place at 31 March 2017.

A provision of £492k has been made at 31 July 2016 (2015 - £426k) for the present value of the estimated future deficit funding element of the contributions payable under this agreement. In determining the level of this provision it has been assumed that the College will continue to have a constant level of employee participation in this scheme and that the relevant earnings of these employees will increase in line with the actuary's projected long-term salary rate increases.

A copy of the full actuarial valuation report and other further details on the scheme are available on the USS website www.uss.co.uk

Oxford Staff Pension Scheme

The pension charge for the year includes £376k (2015 - £506k) in relation to the OSPS. This represents contributions of £421k payable to the OSPS as adjusted by the change in the deficit funding liability between the opening and closing balance sheet dates of £(44)k.

The latest formal actuarial valuation of OSPS was carried out as at 31 March 2013 to meet the requirements of the Pensions Act 2004, and was published in June 2014. This valuation showed the scheme assets as £424.3m being sufficient to cover 71% of its liabilities of £597.7m on a technical provisions basis with an overall shortfall of £173.4m.

Following this valuation, the trustee and the University have agreed to increase the employer contribution rate to the Scheme to 23.5% of Pensionable Salaries, with this increase from the current rate of 21.5% being implemented in steps of 0.5% of Pensionable Salaries over the three years to 1 August 2017. In addition, the Employers will continue to reimburse the Scheme in respect of Pension Protection Fund (PPF) and other levies collected by the Pensions Regulator.

These contributions, together with an allowance for the Scheme's assets to return 2.5% per annum above gilt yields are expected to eliminate the technical provision deficit by 30 June 2026, the same date targeted under the recovery plan agreed at the previous valuation. The underlying calculations take account of the estimated improvement in the funding position over the period to 31 May 2014 and the projected reduction in the cost of future benefit accrual from an estimated 19.3% at 31 May 2014 to around 16.5% of Pensionable Salary by 30 June 2026. This reduction is due to a combination of increases in gilt yields already priced into yield curves at 31 May 2014 and projected changes to the nature of the active membership over the period.

A subsequent interim actuarial report as at 31 March 2015 issued in October 2015 has reported an increased deficit of £213.4k and a funding level of 71%. No changes to the contribution rates being paid have been made as a result of this interim actuarial report. A full review of the employers' contributions will be completed no later than following the next valuation, which is due to take place at 31 March 2016.

A provision of £1,096k has been made at 31 July 2016 (2015 - £1,140k) for the present value of the estimated future deficit funding element of the contributions payable under this agreement. In determining the level of this provision it has been assumed that the College will continue to have a constant level of employee participation in this scheme and that the relevant earnings of these employees will increase in line with the actuary's projected long-term salary rate increases.

A copy of the full actuarial valuation report and other further details on the scheme are available on the University of Oxford website https://www.admin.ox.ac.uk/finance/epp/pensions/schemes/osps/publications/

24 TAXATION

The College is able to take advantage of the tax exemptions available to charities from taxation in respect of income and capital gains received to the extent that such income and gains are applied to exclusively charitable purposes. No liability to corporation tax arises in the College's subsidiary company(ies) because the directors of this/these company(ies) have indicated that they intend to make donations each year to the College equal to the taxable profits of the company under the Gift Aid scheme. Accordingly no provision for taxation has been included in the financial statements.

29 CAPITAL COMMITMENTS

The College had contracted commitments at 31 July for future capital projects totalling £0k (2015 - £14k).

30 RELATED PARTY TRANSACTIONS

The College is part of the collegiate University of Oxford. Material interdependencies between the University and of the College arise as a consequence of this relationship. For reporting purposes, the University and the other Colleges are not treated as related parties as defined in FRS 102

Members of the Governing Body, who are the trustees of the College and related parties as defined by FRS 102, receive remuneration and facilities as employees of the College. Details of these payments and reimbursed expenses as trustees are disclosed separately in these financial statements.

Loans to trustees are available under two schemes:

- Loans up to £200,000 to assist with the purchase of a principal residence or significant extension and
 are interest free and repayable within 8 years of inception or when the trustee leaves the College, if earlier.
 These loans are made to assist recruitment and retention. The need for such a loan must be demonstrated
 to a committee comprising of the Bursar, the Director of Finance and a Fellow who is not remunerated by the College.
- Loans of up to £10k are available to all Fellows and interest is charged at 5% p.a.. The loans are repayable when the trustee leaves the College.

None

32 POST BALANCE SHEET EVENTS

There are no post balance sheet events that require disclosure.

33 TRANSITION TO FRS 102

The College adopted FRS 102 at 31 July 2016. The date of transition is 1 August 2014. The net effect is set out below

| Effect on the SoFA | Unrestricted Funds £'000 | Restricted Funds £'000 | Endowed Funds £'000 | 2015 Total £'000 |
|--|--------------------------------|------------------------------|-------------------------------------|-----------------------------------|
| Net Income/(Expenditure) as previously stated Pension provision | 286 (314) | 516 | (113) | 689 (314) |
| Net Income/(Expenditure) as restated | (28) | 516 | (113) | 375 |
| | | | As at 1 August 2,014 £'000 | As at 31 July 2015 £'000 |
| Net Funds (as previously stated) | | | 70,977 | 74,413 |
| Unrestricted Recognition of pension deficit Holiday pay accrual | | | (1,248) (118) | (1,563) (118) |
| Total unrestricted | | | (1,366) | (1,681) |
| Restricted | | | | |
| Total restricted | | | | |
| Endowed | | | | |
| Total Endowed | | | | |
| Net Funds (as restated) | | | 69,611 | 72,732 |

The most significant change is the recognition of a liability in respect of the deficit reduction arrangements for multi employer pension defined benefit pension schemes that are accounted for as defined contribution schemes.

FRS 102 explicitly requires accrued compensated absences to be accounted for. An accrual in respect of accrued holiday pay for non-academic staff has been recognised in the financial statements.

The College has decided to take advantage of transitional provisions within FRS 102 to elect to measure the fair value of certain items of freehold and leasehold property and for that fair value to be used as the deemed cost of the item going forward from the date of transition (1 August 2014). This has increased the value of the fixed assets and increased the annual depreciation charge.
