Mansfield College
Governing Body, Officers and Advisers
Year ended 31 July 2018

During the year the activities of the Governing Body were carried out through two committees. The current membership of these committees is shown above for each Fellow.

- (1)** Finance, General Purposes and Development Committee
- (2)** Academic Policy Committee

In addition the College has a Remuneration Committee comprised entirely of external members and various ad hoc committees convened as required to address specific issues.

Mansfield College
Governing Body, Officers and Advisers
Year ended 31 July 2018

COLLEGE SENIOR STAFF

The senior staff of the College to whom day to day management was delegated during the year are as follows.

Baroness Helena Kennedy	Principal
Mr Allan Dodd	Bursar
Ms Lucinda Rumsey	Senior Tutor
Dr Christopher Salamone	Dean
Professor Steve Biller	Tutor for Graduates
Ms Lynne Quiggin	Domestic Bursar
Ms Helen Jones	Development Director
Ms Dawn Oliver	College Accountant

The Members of the Governing Body present their Annual Report for the year ended 31 July 2018 under the Charities Act 2011 together with the audited financial statements for the year.

REFERENCE AND ADMINISTRATIVE INFORMATION

Mansfield College in the University of Oxford, which is known as Mansfield College, (“the College”) is an eleemosynary chartered charitable corporation aggregate. It was founded in 1886 as a theological non-conformist training college and received its Royal Charter in 1995.

The College registered with the Charities Commission on 20th September 2011 (registered number 1143860).

The names of all Members of the Governing Body at the date of this report and of those in office during the year, together with details of the senior staff and advisers of the College, are given on pages 2-4.

STRUCTURE, GOVERNANCE AND MANAGEMENT

Governing documents

The College is governed by its Charter and Statutes dated 11 April 1995.

Governing Body

The Governing Body is constituted and regulated in accordance with the College Statutes, the terms of which are enforceable ultimately by the Visitor (the Chancellor of The University of Oxford). The Governing Body is self-appointing. New members are elected on the basis of Statutes I and IV which define the categories of Fellows. The Governing Body determines the strategic direction of the College and regulates its administration and the management of its finances and assets. It meets regularly under the chairmanship of the Principal and is advised by two main committees.

Recruitment and training of Members of the Governing Body

New Members of the Governing Body are recruited as a result of joint appointments with the University, College-only appointments and election of Professorial Fellows. They are inducted into the workings of the College, including Governing Body policy and procedures, as required by briefings from College senior officers.

Remuneration of Members of the Governing Body and Senior College Staff

Members of the Governing Body who are primarily Fellows are teaching and research employees of the College and/or the University of Oxford and receive no remuneration or benefits from their trusteeship of the College. Those trustees who are also employees of the College receive remuneration for their work as employees of the College which is set based on the advice of the College’s Remuneration Committee, members of which are not employees of the College and not in receipt of remuneration from the College. Where applicable, remuneration is set in line with that awarded to the University’s academic staff.

The remuneration of senior college staff is set by in line with benchmarked salaries in other colleges of the University of Oxford.

Organisational Management

The Governing Body meets nine times a year unless additional exceptional meetings are required. The work of developing its policies and monitoring the implementation of these is carried out by two Committees:

- The Finance General Purposes and Development Committee (F&GPD) reviews the College’s financial performance on a regular basis, and makes recommendations to Governing Body on the annual budget and financial policy. It also considers a range of other related matters including development activity and performance, audit, personnel and operational matters.

- The Academic Policy Committee (APC) considers the academic policies of the college and long term strategic academic developments and provisions, as well as a range of other academic policies and procedures in relation to student achievement and progress.

Other committees are convened as required to address specific issues.

The day-to-day running of the College is delegated to the senior officers of the College.

Group structure and relationships

The College is part of the collegiate University of Oxford. Material interdependencies between the University and the College arise as a consequence of this relationship.

The College also has one wholly owned non-charitable subsidiary: Mansfield College Development Limited, whose annual profits are donated to the College. The trading activities of Mansfield College Developments Limited are to undertake major capital projects on behalf of the College. Its aims, objectives and achievements are covered in the relevant sections of this report.

OBJECTIVES AND ACTIVITIES

Charitable Objects and Aims

The College's Objects are to:

- Advance learning, education and research in the arts and the sciences;
- Provide facilities for men and women who shall be members of the University in which they may work for degrees, diplomas and certificates of the University and where men and women may engage in advanced and other study and the conduct and publication of research in Oxford;
- Promote the Christian religion and in particular the Christian traditions originating in the Continental Reformation and English Dissent; and to provide opportunities for the study of theology and training for the Christian Ministry, having regard especially to the ministries of the United Reformed Church in the United Kingdom and the Churches of the Congregational Federation.

The Governing Body has considered the Charity Commission's guidance on public benefit and, in keeping with its objects, the College's aims for the public benefit are to attract students from diverse backgrounds. The College therefore devotes significant resources to outreach activities to encourage applicants from non-traditional backgrounds, and contributes to general bursary and specific hardship funds in support of widening access.

The College's success in this respect is demonstrated by the proportion of its UK undergraduates who were educated in the maintained sector. In recent years this has typically been 80-85% with the most recent intake at over 95% - very considerably above the Oxford average and some margin above the level of the next highest college.

The College continues to be active in carrying out access work with schools and colleges in the maintained sector. The alumni of the College go on to work in many spheres, and to have a beneficial impact on the wider community. Its academics carry out original research which is also of public benefit.

The aims set for the College's subsidiary are to help finance the achievement of the College's aims as above.

Activities and objectives of the College

The College's activities are focused on furthering its stated objects and aims for the public benefit. In the course of the year some 440 students from all parts of the UK and throughout the world benefitted from the educational opportunities provided by the College. The students included those studying for undergraduate

degrees, masters level degrees and doctorates, together with other students on visiting student programmes.

The Fellows of the College made significant contributions to their academic disciplines and to the wider academic community with their excellent research, publications and teaching.

The College promoted its Christian object through the funding of a Chaplain and the provision of a regular Christian service, together with other services of a Christian nature such as the annual Christmas carol service. The Chaplain also supports the College's welfare provision.

During the year the College contributed £61k to the funding of bursaries under the Oxford Opportunity Bursary and Oxford Tuition Fee Reduction system in 2017-18. The College provides in-year support to students encountering financial difficulties from College-specific hardship funds and from donations from the College Contribution Fund. This amounted to £35k in 2017-18. The College also supported the recruitment of a Reach Scholar – an undergraduate from a low income country who would not be able to attend Oxford without significant financial support. The College, together with individual members of the senior, middle and junior common rooms, supported the Reach Scholar's tuition fees and living costs.

ACHIEVEMENTS AND PERFORMANCE

Student numbers in 2017-18 were 235 undergraduates, 168 post-graduates and 39 visiting students (visiting students are mainly from colleges in the USA attending for one academic year). The College built on its reputation as an institution dedicated to widening access to higher education with its outreach work, and offered a higher proportion of places to maintained sector candidates than any other Oxford college.

Students achieved well in their individual academic performance, and overall academic results compared satisfactorily in comparison with previous years and also with similar Oxford colleges.

During the year Mansfield College Developments Limited (on behalf of the College) continued with the construction of a very significant project known as the Hands Building. The building – completed shortly after the beginning of the financial year – provides 74 new rooms of a high quality which enables the College to provide College-owned rooms to three full undergraduate cohorts as well as further developing its conference offer. The building provides a number of major benefits to the undergraduate student population by relieving second year students of the need to find private sector accommodation, thereby saving them considerable costs and avoiding the stress and pressure associated with finding suitable rented accommodation. The Hands Building also houses the Oxford Bonavero Institute of Human Rights (IHR), a research institute focusing on one of the key issues of the modern world. The IHR began its work during 2016-17 and began operations from the Hands Building in 2017-18.

The College also completed a number of smaller but important projects including the replacement of all of the windows in the Ablethorpe student accommodation using funds supplied by the College Contribution Fund.

With regard to development the College continued to fund-raise for the Hands Building, achieving close to full funding of the £13m project cost, whilst continuing to increase the level of giving from friends and alumni for its core activities.

FINANCIAL REVIEW

The College showed a surplus on net incoming/outgoing resources of £3.919m. This was after donations of £3.734m during the year. This very high surplus is the product of the College's very successful fund-raising work to generate the funds to build the Hands Building (see above). The surplus is, in effect, funds raised for and spent on the Hands Building project. Net assets increased from £27.4m in 2016-17 to £31.3m in 2017-18, largely as a result of the addition of the Hands Building to the College's fixed asset portfolio. Conference

income increased significantly as a direct consequence of the Hands Building project, whilst other income sources achieved predicted outcomes and overall costs were below budget.

At the balance sheet date the College carried significant borrowing. This represents historic loans to fund previous capital projects together with loans taken out to fund the construction costs of the Hands Building.

The accounts include a specific valuation of the College's share of pension liabilities in the Universities Superannuation Fund and the Oxford Staff Pension Scheme. This stands at £556k compared with an equivalent figure of £612k as at 31 July 2017.

The College's future financial position will continue to be enhanced by the completion of the Hands Building, which enables it to earn significant additional funds both from student rents (whilst simultaneously reducing each student's accommodation costs) and from conference activity.

Reserves Policy

The College's reserves policy is to maintain sufficient free reserves to enable it to meet its short-term financial obligations in the event of an unexpected revenue shortfall and to allow the College to be managed efficiently and to provide a buffer that would ensure uninterrupted services.

Total funds of the College and its subsidiary at the year-end amounted to £31.3m (2017: £27.4m). This includes endowment capital of £14.5m and unspent restricted income funds totalling £0.66m.

Risk Management

The College has on-going processes which operated through-out the financial year for identifying, evaluating and managing the principal risks and uncertainties faced by the College and its subsidiary in undertaking its activities. When it is not able to address risk issues using internal resources, the College takes advice from experts external to the College with specialist knowledge. Policies and procedures within the College are reviewed by the relevant College Committee, chaired by the Principal or one of the Bursars. Financial risks are assessed by the Finance General Purposes and Development Committee. In addition, the Bursar, Domestic Bursar and domestic staff heads meet regularly to review a range of operational and health and safety issues. Training courses and other forms of career development are available, when requested, to members of staff to enhance their skills in risk-related areas.

The Governing Body, which has ultimate responsibility for managing risk, considers the key risks faced by the College as is needed. The principal risks and uncertainties faced by the College and its subsidiary, together with the mitigating actions in place, at present are:

- A significant loss of conference income. Conference income is managed at a senior level and reviewed on a monthly basis. Most of the income is recurring, which mitigates against any potential loss, and any actual loss (which is rare) is responded to by active marketing and the use of University Rooms business to fill any vacant rooms. The success of this strategy has been demonstrated on two occasions in recent years when major conference clients terminated their activities and the lost income was more than recovered by active marketing of other potential income streams.
- A significant loss of income from visiting students. The College has appointed a senior member of staff to take responsibility for our relationships with US universities and to ensure that, wherever possible, each of the universities involved has a clear agreement with the College to deliver an indicative number of students. This approach has ensured that the number of visiting students remains near constant year on year.
- A reduction in student tuition fees arising from a change in Government policy (including a possible change of Government). The College has strengthened its financial position through a significant growth in core income which increases its resilience to adverse change in the funding environment, and

will continue to operate well within its current income level until any change in the fees position becomes clear.

Investment Policy, Objectives and Performance

The College's investment objectives are to balance current and future beneficiary needs by:

- Maintaining (at least) the value of the investments in real terms;
- Producing a consistent and sustainable level of income to support expenditure; and
- Delivering these objectives within acceptable levels of risk.

To meet these objectives the College's investments as a whole are managed to maintain diversification across a range of asset classes in order to produce an appropriate balance between risk and return.

The investment policy and strategy has been set by the Governing Body and performance is monitored regularly. At the year end, the College's long term investments totalled £14.5m representing an increase of 4.9% over the year.

Fundraising

The College continued to focus its fundraising activities in 2017-18 on securing funds for building projects, student support and general College activities.

The College is registered with the Fundraising Regulator and employs full and part-time professional staff in the Development Office to act on its behalf in this area and to ensure that it is compliant with the Code of Fundraising Practice. Training is given to Development Office staff to ensure that they are aware of the Code.

The College did not receive any complaints relating to its fundraising activities.

FUTURE PLANS

The core elements of the College's future plans as agreed by the Governing Body are:

- To continue to provide significant public benefit by attracting undergraduate students from a wide range of backgrounds, especially students from areas of social and economic disadvantage and from families and schools which have no history of accessing Oxford.
- To provide the highest possible quality of education to all students of the College.
- To increase the College's graduate student population in line with the ambitions of the University as a whole.
- To continue to integrate the Oxford Bonavero Institute of Human Rights into the daily life of the College.
- To manage prudently within the funds available so as to ensure the long term viability of the College.

Specific development plans have been agreed for the separate departments within the College to ensure that the College continues to enhance its ability to provide a first-class education.

FUNDS HELD AS CUSTODIAN TRUSTEE ON BEHALF OF OTHERS

G B Caird Memorial Trust is a registered charity (number 328327) with the charitable object of promoting biblical studies at Mansfield College. The College is investing £250,000 on behalf of the G B Caird Memorial Trust, in order to maximise returns and reduce investment management costs.

STATEMENT OF ACCOUNTING AND REPORTING RESPONSIBILITIES

The Governing Body is responsible for preparing the Report of the Governing Body and the financial statements in accordance with applicable law and regulations.

Mansfield College
Report of the Governing Body
Year Ended 31 July 2018

Charity law requires the Governing Body to prepare financial statements for each financial year. Under that law the Governing Body has prepared the financial statements in accordance United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law), including Financial Reporting Standard 102: The Financial Reporting Standard Applicable in the UK and Republic of Ireland (FRS 102).

Under charity law the Governing Body must not approve the financial statements unless it is satisfied that they give a true and fair view of the state of affairs of the College and of its net income or expenditure for that period. In preparing these financial statements, the Governing Body is required to:

- Select the most suitable accounting policies and then apply them consistently.
- Make judgments and accounting estimates that are reasonable and prudent.
- State whether applicable accounting standards, including FRS 102, have been followed, subject to any material departures disclosed and explained in the financial statements.
- State whether a Statement of Recommended Practice (SORP) applies and has been followed, subject to any material departures which are explained in the financial statements.
- Prepare the financial statements on the going concern basis unless it is inappropriate to presume that the College will continue to operate.

The Governing Body is responsible for keeping proper accounting records that are sufficient to show and explain the College's transactions and disclose with reasonable accuracy at any time the financial position of the College and enable it to ensure that the financial statements comply with the Charities Act 2011. It is also responsible for safeguarding the assets of the College and ensuring their proper application under charity law and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Approved by the Governing Body on 21 November 2018 and signed on its behalf by:

Principal
(Helen Mountfield QC)

Trustee
(Ms Lucinda Rumsey)

Opinion

We have audited the financial statements of Mansfield College (the "Charity") for the year ended 31 July 2018 which comprise the Statement of Accounting Policies, the Consolidated Statement of Financial Activities, the Consolidated and College Balance Sheets, the Consolidated Cash Flow Statement and notes to the financial statements. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102: The Financial Reporting Standard applicable in the UK and Republic of Ireland (United Kingdom Generally Accepted Accounting Practice).

This report is made solely to the College's Governing Body, as a body, in accordance with section 144 of the Charities Act 2011 and the regulations made under section 154 of that Act. Our audit work has been undertaken so that we might state to the Members of the Governing Body those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the College's Governing Body as a body, for our audit work, for this report, or for the opinions we have formed.

In our opinion, the financial statements:

- give a true and fair view of the state of the group and charity's affairs as at 31 July 2018 and of the group's income and expenditure for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice;
- have been prepared in accordance with the requirements of the Charities Act 2011.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the Charity in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which the ISAs (UK) require us to report to you where:

- the Members of the Governing Body's use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the Members of the Governing Body have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the Charity's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

Other information

The Members of the Governing Body are responsible for the other information. The other information comprises the information included in the annual report other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and,

except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters in relation to which the Charities Act 2011 requires us to report to you if, in our opinion:

- sufficient accounting records have not been kept;
- the financial statements are not in agreement with the accounting records and returns; or
- we have not obtained all the information and explanations necessary for the purposes of our audit.

Responsibilities of the Members of the Governing Body

As explained more fully in the Statement of Accounting and Reporting Responsibilities set out on page 9, the Members of the Governing Body are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Members of the Governing Body are responsible for assessing the Charity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Members of the Governing Body either intend to liquidate the Charity or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at: www.frc.org.uk/apb/scope/private.cfm. This description forms part of our auditor's report.

Critchleys Audit LLP
Statutory Auditor
Oxford
Date:

Critchleys Audit LLP is eligible to act as an auditor in terms of sections 1212 of the Companies Act 2006.

1. Scope of the financial statements

The financial statements present the Consolidated Statement of Financial Activities (SOFA), the Consolidated and College Balance Sheets and the Consolidated Statement of Cash Flows for the College and its wholly owned subsidiary Mansfield College Development Limited. The subsidiary has been consolidated from the date of its formation being the date from which the College has exercised control through voting rights in the subsidiary. No separate SOFA has been presented for the College alone as currently permitted by the Charity Commission on a concessionary basis for the filing of consolidated financial statements. A summary of the results and financial position of the charity and its material subsidiary for the reporting year are in note 11.

2. Basis of accounting

The College's individual and consolidated financial statements have been prepared in accordance with United Kingdom Accounting Standards, in particular 'FRS 102: The Financial Reporting Standard applicable in the UK and Republic of Ireland' (FRS 102).

The College is a public benefit entity for the purposes of FRS 102 and a registered charity. The College has therefore also prepared its individual and consolidated financial statements in accordance with 'The Statement of Recommended Practice applicable to charities preparing their financial statements in accordance with FRS 102' (The Charities SORP (FRS 102)).

The financial statements have been prepared on a going concern basis and on the historical cost basis, except for the measurement of investments and certain financial assets and liabilities at fair value with movements in value reported within the Statement of Financial Activities (SOFA). The principal accounting policies adopted are set out below and have been applied consistently throughout the year.

3. Accounting judgements and estimation uncertainty

The College has used the methodologies provided by the Universities Superannuation Scheme and the Oxford Staff Pension Scheme to calculate its share of the deficits of these two schemes. This calculation therefore embodies major judgements made by the trustees of the schemes as to the actions required to eliminate their overall deficits and the rate at which this can be achieved.

In the view of the Governing Body, no assumptions concerning the future or estimation uncertainty affecting assets and liabilities at the balance sheet date are likely to result in a material adjustment to their carrying amounts in the next financial year.

4. Income recognition

All income is recognised once the College has entitlement to the income, the economic benefit is probable and the amount can be reliably measured.

a. Income from fees, HEFCE support and other charges for services

Fees receivable, less any scholarships, bursaries or other allowances granted from the College unrestricted funds, HEFCE support and charges for services and use of the premises are recognised in the period in which the related service is provided.

b. Income from donations, grants and legacies

Donations and grants that do not impose specific future performance-related or other specific conditions are recognised on the date on which the charity has entitlement to the resource, the amount can be reliably measured and the economic benefit to the College of the donation or grant is probable. Donations and grants subject to performance-related conditions are recognised as and when those conditions are met. Donations and grants subject to other specific conditions are recognised as those conditions are met or their fulfilment is wholly within the control of the College and it is probable that the specified conditions will be met.

Legacies are recognised following grant of probate and once the College has received sufficient information from the executor(s) of the deceased's estate to be satisfied that the gift can be reliably measured and that the economic benefit to the College is probable.

Donations, grants and legacies accruing for the general purposes of the College are credited to unrestricted funds.

Donations, grants and legacies which are subject to conditions as to their use imposed by the donor or set by the terms of an appeal are credited to the relevant restricted fund or, where the donation, grant or legacy is required to be held as capital, to the endowment funds. Where donations are received in kind (as distinct from cash or other monetary assets), they are measured at the fair value of those assets at the date of the gift.

c. Investment income

Interest on bank balances is accounted for on an accrual basis with interest recognised in the period to which the interest relates.

Income from fixed interest debt securities is recognised using the effective interest rate method.

Dividend income and similar distributions are recognised on the date the share interest becomes ex-dividend or when the right to the dividend can be established.

Income from investment properties is recognised in the period to which the rental income relates.

5. Expenditure

Expenditure is accounted for on an accruals basis. A liability and related expenditure is recognised when a legal or constructive obligation commits the College to expenditure that will probably require settlement, the amount of which can be reliably measured or estimated.

Grants awarded that are not performance-related are charged as an expense as soon as a legal or constructive obligation for their payment arises. Grants subject to performance-related conditions are expensed as the specified conditions of the grant are met.

All expenditure including support costs and governance costs are allocated or apportioned to the applicable expenditure categories in the Statement of Financial Activities (the SOFA).

Support costs which includes governance costs (costs of complying with constitutional and statutory requirements) and other indirect costs are apportioned to expenditure categories in the SOFA based on the estimated amount attributable to that activity in the year, either by reference to staff time or the use made of the underlying assets, as appropriate. Irrecoverable VAT is included with the item of expenditure to which it relates.

Intra-group sales and charges between the College and its subsidiary are excluded from trading income and expenditure in the consolidated financial statements.

6. Leases

Leases of assets that transfer substantially all the risks and rewards of ownership are classified as finance leases. The costs of the assets held under finance leases are included within fixed assets and depreciation is charged over the shorter of the lease term and the assets' useful lives. Assets are assessed for impairment at each reporting date. The corresponding capital obligations under these leases are shown as liabilities and are recognised at the lower of the fair value of the leased assets and the present value of the minimum lease payments. Lease payments are apportioned between capital repayment and finance charges in the SOFA so as to achieve a constant rate of interest on the remaining balance of the liability.

Leases that do not transfer all the risks and rewards of ownership are classified as operating leases. Rentals payable under operating leases are charged in the SOFA on a straight line basis over the relevant lease terms. Any lease incentives are recognised over the lease term on a straight line basis.

7. Tangible fixed assets

Land is stated at cost. Buildings and equipment are stated at cost less accumulated depreciation and any accumulated impairment losses.

Expenditure on the acquisition, construction and enhancement of buildings which is directly attributable to bringing the asset to its working condition for its intended use, and expenditure on equipment, amounting to more than £1,500 is capitalised.

Where a part of a building or equipment is replaced and the costs capitalised, the carrying value of those parts replaced is derecognised and expensed in the SOFA.

Other expenditure on equipment incurred in the normal day-to-day running of the College and its subsidiaries is charged to the SOFA as incurred.

8. Depreciation

Depreciation is provided to write off the cost of all relevant tangible fixed assets, less their estimated residual value, in equal annual instalments over their expected useful economic lives as follows:

Freehold properties, including major extensions	50 years
Leasehold properties	Period of lease
Building improvements	10 years
Equipment	3years

At the end of each reporting period, the residual values and useful lives of assets are reviewed and adjusted if necessary. In addition, if events or change in circumstances indicate that the carrying value may not be recoverable then the carrying values of tangible fixed assets are reviewed for impairment.

9. Heritage Assets

The College has not included any heritage assets in these accounts.

10. Investments

Listed investments are initially measured at their cost and subsequently measured at their fair value at each reporting date. Fair value is based on their quoted price at the balance sheet date without deduction of the estimated future selling costs.

Changes in fair value and gains and losses arising on the disposal of investments are credited or charged to the income or expenditure section of the SOFA as 'gains or losses on investments' and are allocated to the fund holding or disposing of the relevant investment.

11. Other financial instruments

a. Cash and cash equivalents

Cash and cash equivalents include cash at banks and in hand and short term deposits with a maturity date of three months or less.

b. Debtors and creditors

Debtors and creditors receivable or payable within one year of the reporting date are carried at their at transaction price. Debtors and creditors that are receivable or payable in more than one year and not subject to a market rate of interest are measured at the present value of the expected future receipts or payment discounted at a market rate of interest.

12. Stocks

Stocks are valued at the lower of cost and net realisable value, cost being the purchase price on a first in, first out basis.

13. Foreign currencies

The functional and presentation currency of the College and its subsidiaries is the pound sterling.

Transactions denominated in foreign currencies during the year are translated into pounds sterling using the spot exchange rates at the dates of the transactions.

14. Fund accounting

The total funds of the College and its subsidiaries are allocated to unrestricted, restricted or endowment funds based on the terms set by the donors or set by the terms of an appeal. Endowment funds are further sub-divided into permanent and expendable.

Unrestricted funds can be used in furtherance of the objects of the College at the discretion of the Governing Body. The Governing Body may decide that part of the unrestricted funds shall be used in future for a specific purpose and this will be accounted for by transfers to appropriate designated funds.

Restricted funds comprise gifts, legacies and grants where the donors have specified that the funds are to be used for particular purposes of the College. They consist of either gifts where the donor has specified that both the capital and any income arising must be used for the purposes given or the income on gifts where the donor has required or permitted the capital to be maintained and with the intention that the income will be used for specific purposes within the College's objects.

Permanent endowment funds arise where donors specify that the funds are to be retained as capital for the permanent benefit of the College. Any part of the total return arising from the capital that is allocated to income will be accounted for as unrestricted funds unless the donor has placed restrictions on the use of that income, in which case it will be accounted for as a restricted fund.

Expendable endowment funds are similar to permanent endowment in that they have been given, or the College has determined based on the circumstances that they have been given, for the long term benefit of the College. However, the Governing Body may at their discretion determine to spend all or part of the capital.

15. Pension costs

The costs of retirement benefits provided to employees of the College through two multi-employer defined pension schemes are accounted for as if these were defined contribution schemes as information is not available to use defined benefit accounting in accordance with the requirements of FRS 102. The College's contributions to these schemes are recognised as a liability and an expense in the period in which the salaries to which the contributions relate are payable.

In addition, a liability is recognised at the balance sheet date for the discounted value of the expected future contribution payments under the agreements with these multi-employer schemes to fund the past service deficits.

16. Agency arrangements

The college acts as agent in investing monies for the G B Caird Memorial Trust. Income and expenditure relating to this investment is excluded from the statement of financial activities as the College does not have control over the charitable application of the funds. The funds received and paid and any balances held are disclosed in note 29.

5 ANALYSIS OF EXPENDITURE

	2018	2017
	£'000	£'000
Charitable expenditure		
Direct staff costs allocated to:		
Teaching, research and residential	2,326	2,010
Other direct costs allocated to:		
Teaching, research and residential	2,216	1,728
Support and governance costs allocated to:		
Teaching, research and residential	1,161	854
Total charitable expenditure	5,703	4,592
Expenditure on raising funds		
Direct staff costs allocated to:		
Fundraising	264	259
Trading expenditure	105	128
Other direct costs allocated to:		
Fundraising	139	105
Trading expenditure	63	79
Support and governance costs allocated to:		
Fundraising	27	26
Trading expenditure	11	-
Investment management costs	23	50
Total expenditure on raising funds	632	647
Total expenditure	6,335	5,239

The 2017 resources expended of £5239k represented £4737k from unrestricted funds, £502k from restricted funds and £0k from endowed funds.

The College is liable to be assessed for Contribution under the provisions of Statute XV of the University of Oxford. The Contribution Fund is used to make grants and loans to colleges on the basis of need. Contributions are calculated annually in accordance with regulations made by the Council of the University of Oxford.

The teaching and research costs include College Contribution payable of £0k (2017 - £0k).

6 ANALYSIS OF SUPPORT AND GOVERNANCE COSTS

	Generating Funds £'000	Teaching and Research £'000	Public Worship £'000	Heritage £'000	2018 Total £'000
Financial administration	22	246	-	-	268
Domestic administration	-	106	-	-	106
IT	5	125	-	-	130
Depreciation	-	608	-	-	608
Other finance charges	11	54	-	-	65
Governance costs	-	22	-	-	22
	38	1,161	-	-	1,199

	Generating Funds £'000	Teaching and Research £'000	Public Worship £'000	Heritage £'000	2017 Total £'000
Financial administration	21	228	-	-	249
Domestic administration	-	88	-	-	88
IT	5	92	-	-	97
Depreciation	-	342	-	-	342
Other finance charges	-	80	-	-	80
Governance costs	-	24	-	-	24
	26	854	-	-	880

Financial and domestic administration, IT and human resources costs are attributed according to the estimated staff time spent on each activity.
 Depreciation costs and profit or loss on disposal of fixed assets are attributed according to the use made of the underlying assets.
 Interest and other finance charges are attributed according to the purpose of the related financing.
 Governance costs are allocated to the core charitable activity of tuition.

	2018 £'000	2017 £'000
Governance costs comprise:		
Auditor's remuneration - audit services	14	15
Auditor's remuneration - other services	8	9
	22	24

No amount has been included in governance costs for the direct employment costs or reimbursed expenses of the College Fellows on the basis that these payments relate to the Fellows involvement in the College's charitable activities. Details of the remuneration of the Fellows and their reimbursed expenses are included as a separate note within these financial statements.

Mansfield College
Notes to the financial statements
For the year ended 31 July 2018

The College has substantial long-held historic assets all of which are used in the course of the College's teaching and research activities. These comprise listed buildings on the College site, together with their contents comprising works of art, ancient books and manuscripts and other treasured artefacts. Because of their age and, in many cases, unique nature, reliable historical cost information is not available for these assets and could not be obtained except at disproportionate expense. However, in the opinion of the Trustees the depreciated historical cost of these assets is now immaterial.

Tangible fixed assets with a net book value of £21,908k (2017: £20,233k) have been pledged as security for liabilities of the College.

16 FUNDS OF THE COLLEGE DETAILS

The following is a summary of the origins and purposes of each of the Funds

Endowment Funds - Permanent:

General endowment

A consolidation of gifts and donations where income, but not capital, can be used for the general purposes of the College

Fellowships

Capital balance of past donations where related income, but not the original capital, can be used for supporting Teaching Fellowships

Scholarships/Prizes/Bursaries

Capital balance of past donations where related income, but not the original capital, can be used for the provision of scholarships, prizes and bursaries

Other

A consolidation of gifts and donations where income, but not capital, can be used to support other specified College activities

Endowment Funds - Expendable:

General endowment

A consolidation of gifts and donations where either income, or income and capital, can be used for the general purposes of the College

Fellowships

A consolidation of gifts and donations where either income, or income and capital, can be used for supporting Teaching Fellowships

Scholarships/Prizes/Bursaries

Capital balance of past donations where related income, or income and capital, can be used for supporting the provision of scholarships, prizes and bursaries

Other

A consolidation of gifts and donations where either income, or income and capital, can be used for supporting Teaching Fellowships or Buildings

Mansfield College
Notes to the financial statements
For the year ended 31 July 2018

16 FUNDS OF THE COLLEGE DETAILS continued

Restricted Funds:

Fellowships	A consolidation of gifts and donations where both income and capital must be used for supporting Teaching Fellows
Scholarships/Prizes/Bursaries	A consolidation of gifts and donations where both income and capital must be used for the provision of scholarships, prizes and bursaries
Chapel and related purposes	A consolidation of gifts and donations where both income and capital must be used to support the Chapel and related activities
Buildings	A consolidation of gifts and donations where both income and capital must be used to provide new buildings, and maintain existing buildings
Other	A consolidation of gifts and donations where both income and capital must be used to support a variety of College activities

Designated Funds

Fixed asset designated fund	Unrestricted Funds which are represented by the fixed assets of the College and therefore not available for expenditure on the College's general purposes
Pension reserve	Representing the liability for future pension contributions under defined benefit schemes.

The General Unrestricted Funds represent accumulated income from the College's activities and other sources that are available for the general purposes of the College

18 TRUSTEES' REMUNERATION

The Fellows who are the Trustees of the College for the purposes of charity law receive no remuneration for acting as charity trustees but are paid by either or both of the University and the College for the academic services they provide to the College.

Trustees of the college fall into the following categories:

Head of House
 Professorial Fellow
 Official Fellow
 Supernumary Fellow

No trustee receives any remuneration for acting as a trustee. However, those trustees who are also employees of the college receive salaries for their work as employees. These salaries are paid on external academic and academic-related scales and often are joint arrangements with the University of Oxford.

All Official and Research Fellows are eligible for a Housing Allowance, which is disclosed within the salary figures below.

The College has a Remuneration Committee which makes recommendations to Governing Body on pay and benefits which are outside of external scales. The composition of the Remuneration Committee is set out in page 4 of the section, Governing Body, Officers and Advisers.

Mansfield College
Notes to the financial statements

Total	30	903,117	32	913,594

4 trustees are not employees of the college and do not receive remuneration.

All trustees may eat at common table, as can all other employees who are entitled to meals while working.

Other transactions with trustees

No trustee claimed expenses for any work performed in discharge of duties as a trustee.

See also note 25 Related Party Transactions

Key management remuneration

The total remuneration paid to key management was £380k (2017: £376k).

Key management are considered to be the Principal, the Bursar, the Senior Tutor, the Dean, the Tutor for Graduates, the Development Director, the Accountant, and the Domestic Bursar.

19 PENSION SCHEMES

The College participates in two principal pension schemes for its staff - the Universities Superannuation Scheme (USS) and the College of Oxford Staff Pension Scheme (OSPS). The assets of the schemes are each held in separate trustee-administered funds. USS and OSPS schemes are contributory mixed benefit schemes (i.e. they provide benefits on a defined benefit basis - based on the length of service and pensionable salary and on a defined contribution basis - based on contributions into the scheme). Both are multi-employer schemes and the college is unable to identify its share of the underlying assets and liabilities relating to defined benefits of each scheme on a consistent and reasonable basis. Therefore, in accordance with the accounting standard FRS 102 paragraph 28.11, the College accounts for the schemes as if they were defined contribution schemes. As a result, the amount charged to the Income and Expenditure Account represents the contributions payable to the schemes in respect of the accounting period.

In the event of the withdrawal of any of the participating employers in USS, the amount of any pension funding shortfall (which cannot be otherwise recovered) in respect of that employer will be spread across the remaining participating employers and reflected in the next actuarial valuation of the scheme.

However, in OSPS the amount of any pension funding shortfall in respect of any withdrawing participating employer will be charged to that employer.

Actuarial valuations

Qualified actuaries periodically value the USS and OSPS schemes using the 'projected unit method', embracing a market value approach. The resulting levels of contribution take account of actuarial surpluses or deficits in each scheme. The financial assumptions were derived from market conditions prevailing at the valuation date. The results of the latest actuarial valuations and the assumptions which have the most significant effect on the results of the latest valuations and the determination of the contribution levels are for the two schemes shown in the following table.

	USS	OSPS
Date of valuation:	31/03/2014	31/03/2016
Date valuation results published:	24/07/2015	28/04/2017
Value of liabilities:	£46.9bn	£661m
Value of assets:	£41.6bn	£528m
Funding surplus / (deficit):	(£5.3bn) ^a	(£133m) ^b
Principal assumptions:		
• Investment return	5.2%pa ^c	-
• Rate of interest (periods up to retirement)	-	'Gilt' + 1.2%pa
• Rate of interest (periods up after retirement)	-	'Gilt' + 1.2%pa
• Rate of increase in salaries	RPI + 1%pa ^d	RPI + 1%pa
• Rate of increase in pensions	CPI pa ^d	Average RPI/CPI pa
Mortality assumptions:		
• Assumed life expectancy at age 65 (males)	24.2 yrs	22.4 yrs
• Assumed life expectancy at age 65 (females)	26.3 yrs	24.7 yrs
Funding Ratios:		
• Technical provisions basis	89%	80%
• Statutory Pension Protection Fund basis	82%	67%
• 'Buy-out' basis	54%	42%
• Estimated FRS 102 Total Funding level	77%	82%
Estimated employer contribution rate as a percentage of pensionable salaries	18% ^a	23% decreasing to 19% from
Effective date of next valuation:	31/03/2017	31/03/2019

a. USS's actuarial valuation as at 31 March 2014 takes into account the revised benefit structure effective 1 April 2016 agreed both by the Joint Negotiating Committee and the Trustee in July 2015 following the Employers' consultation which concluded in June 2015. Key changes agreed include: for Final Salary section members, the benefits built up to 31 March 2016 were calculated as at that date using pensionable salary and pensionable service immediately prior to that date and going forwards will be revalued in line with increases in official pensions (currently CPI); all members accrue a pension of 1/75th and a cash lump sum of 3/75ths of salary each year of service in respect of salary up to a salary threshold, initially £55,000 p.a., with the threshold applying from 1 October 2016; member contributions are 8% of salary; a defined contribution benefit for salary above the salary threshold at the total level of 20% of salary in excess of the salary threshold; and optional additional contributions payable into the defined contribution section from 1 October 2016 of which the first 1% of salary is matched by the employer. Further details about the changes may be reviewed on USS' website, www.uss.co.uk. For the period up to 1 April 2016 the employer deficit contribution was 0.7% p.a. of salaries based on the assumptions made. After allowing for those changes, the actuary established a long term employer contribution rate of 18% p.a. of salaries for the period from 1 April 2016 to 31 March 2031. On the assumptions made and with the salary threshold and defined contribution section implemented this gives rise to deficit contributions of at least 2.1% p.a. of salaries. At 31 March 2018 USS reported that the funding deficit was £9.4 bn (88% funded).

b. OSPS' actuarial valuation as at 31 March 2016 identified a required long-term employer contribution rate of 17.3% of total pensionable salaries, with a funding deficit of £133 m. The valuation results reflect a number of changes to benefits that were agreed following an Employers' consultation in early 2017, including from 1 April 2017 a change in indexation based on the average of RPI and CPI, from 1 October 2017 a defined contribution section for new entrants and from 1 April 2018 breaking the final salary link for certain members and increased employee contributions. The actuary has certified that the recovery plan should eliminate the deficit by 30 June 2027. The next triennial valuation is due with an effective date of 31 March 2019.

c. USS' actuary has assumed that the investment return is 5.2% in year 1, decreasing linearly to 4.7% over 20 years.

Mansfield College
Notes to the financial statements
For the year ended 31 July 2018

19 PENSION SCHEMES continued

d. USS' actuary has assumed that general pay growth will be CPI in year 1, CPI + 1% in year 2 and RPI + 1% pa thereafter. It is assumed that CPI is based on the RPI assumption (market derived price inflation of 3.6% p.a less an inflation risk premium) less RPI/CPI gap of 0.8% p.a.

e. As noted above (note a) the USS employer contribution rate is 18% of salaries from 1 April 2018. The total employer contributions include provisions for the cost of future accrual of defined benefits (DB) (net of member contributions to the DB section), deficit contributions, administrative expenses of 0.4% of salaries and from the implementation of the salary threshold the employer contribution towards defined benefits including employer matching contributions and certain investment management costs relating to the DC section. The 2017 actuarial valuation of USS has been undertaken but this has not yet been formally completed. The 2017 valuation has set out the challenges currently facing the scheme and the likelihood of significant increases in contributions being required to address these challenges. In the judgement of the college, as the 2017 valuation has not formally been completed, and there remains various stages of consultation around the key factors specifically relating to the funding of the past deficit, including the level of contributions required, the period of the recovery plan and the level of asset performance over the period, it remains appropriate to continue to account for the past deficit obligation in accordance with the plan agreed after the 2014 actuarial valuation. However, there is a significant risk that the year-end provision as calculated will not reflect the position following the final outcome of negotiations, potentially by a very significant amount depending upon what is finally agreed as regards future deficit contributions and their duration. The college expects to have greater clarity in this respect during the next financial year.

f. As noted above (note b), the OSPS employer contribution rate required for future service benefits in the defined benefit section alone is 17.3% of total pensionable salaries from 1 April 2018. The employer contribution rate was 23% from 1 August 2016 to 31 July 2017. It was agreed that employer contribution rate would be 19% for both defined benefits members and defined contributions members who join on or after 1 October 2017. Part of contribution for defined contribution members would be paid to the defined benefit section to cover the deficit recovery plan, the provision of ill-health and death-in service benefits and the expenses of administering the defined contribution section.

Sensitivity of actuarial valuation assumptions

Surpluses or deficits which arise at future valuations may impact on the College's future contribution commitment. The sensitivities regarding the principal assumptions used to measure the scheme liabilities are set out below:

USS		
Assumption	Change in assumption	Impact on USS liabilities
Initial discount rate	increase / reduce by 0.25%	decrease / increase by £0.8bn
Discount rate in 20 years' time	increase / reduce by 0.25%	decrease / increase by £1.1bn
RPI inflation	increase / reduce by 0.1%	increase / decrease by £0.8bn
Rate of mortality	more prudent assumption (mortality used at last valuation, rated down by a further year)	increase by £0.5bn

OSPS		
Assumption	Change in assumption	Impact on OSPS technical provisions (from 80% funded at 31/03/2016)
Valuation rate of interest	decrease by 1.0%	68%
Rate of pension increases	increase by 1.0%	69%
Life expectancy	more prudent assumption (life expectancy increases by 3 years)	72%

Deficit Recovery Plans

In line with FRS 102 paragraph 28.11A, the college has recognised a liability for the contributions payable for the agreed deficit funding plan. The principle

	OSPS	USS
Finish Date for Deficit Recovery Plan	30/06/2027	31/03/2031
Average staff number increase	1.00%	0%
Average staff salary increase	2.00%	2.00%
Average discount rate over period	1.95%	2.20%
Effect of 0.5% change in discount rate	£8k	£9k
Effect of 1% change in staff growth	£41k	£19k

A provision of £556k has been made at 31 July 2018 (2017: £697k) for the present value of the estimated future deficit funding element of the contributions payable under these agreements, using the assumptions shown. The provision reduces as the deficit is paid according to the pension recovery scheme.

Pension charge for the year

The pension charge recorded by the University during the accounting period (excluding pension finance costs) was equal to the contributions payable after allowance for the deficit recovery plan as follows:

Scheme	2017/18 £'000s	2016/17 £'000s
Universities Superannuation Scheme	288	284
University of Oxford Staff Pension Scheme	233	207
Total	521	491

A copy of the full actuarial valuation report and other further details on the scheme are available on the relevant website: USS - www.uss.co.uk OSPS - www1.admin.ox.ac.uk/finance/epp/pensions/schemes/osps

Mansfield College
Notes to the financial statements
For the year ended 31 July 2018

20 TAXATION

The College is able to take advantage of the tax exemptions available to charities from taxation in respect of income and capital gains received to the extent that such income and gains are applied to exclusively charitable purposes. No liability to corporation tax arises in the College's subsidiary company because the directors of this company have indicated that they intend to make donations each year to the College equal to the taxable profits of the company under the Gift Aid scheme. Accordingly no provision for taxation has been included in the financial statements.

21 RECONCILIATION OF NET INCOMING RESOURCES TO NET CASH FLOW FROM OPERATIONS

	2018	2017
	Group	Group
	£'000	£'000
Net income/(expenditure)	3,948	3,289
Elimination of non-operating cash flows:		
Investment income	(664)	(496)
(Gains)/losses in investments	(672)	(1,214)
Endowment donations	-	-
Depreciation	608	342
(Surplus)/loss on sale of fixed assets	-	-
Decrease/(Increase) in stock	(6)	(6)
Decrease/(Increase) in debtors	1,213	(1,454)
(Decrease)/Increase in creditors	(63)	(33)
(Decrease)/Increase in provisions	-	-
(Decrease)/Increase in pension scheme liability	(56)	(85)
Net cash provided by (used in) operating activities	4,308	343

22 ANALYSIS OF CASH AND CASH EQUIVALENTS

	2018	2017
	£'000	£'000
Cash at bank and in hand	4	2
Notice deposits (less than 3 months)	767	1,126
Total cash and cash equivalents	771	1,128

23 FINANCIAL COMMITMENTS

At 31 July the College had annual commitments under non-cancellable operating leases as follows:

	2018	2017
	£'000	£'000
Land and buildings		
expiring within one year	686	406
expiring between two and five years	95	-
	781	406

24 CAPITAL COMMITMENTS

The College had contracted commitments at 31 July for future capital projects totalling £0k (2017 - £1,217k).

25 RELATED PARTY TRANSACTIONS

The College is part of the collegiate University of Oxford. Material interdependencies between the University and of the College arise as a consequence of this relationship. For reporting purposes, the University and the other Colleges are not treated as related parties as defined in FRS 102

Members of the Governing Body, who are the trustees of the College and related parties as defined by FRS 102, receive remuneration and facilities as employees of the College. Details of these payments and reimbursed expenses as trustees are disclosed separately in these financial statements.

During the year the College made payments totalling £2,174 (2017 - £2,016) to Keiko Ikeuchi, the wife of Paul Lodge, a trustee, for photography services.

During the year the College made payments totalling £2,370 (2017 - £1,970) to Phil Harriss, the partner of Ros Ballaster, a trustee, for editorial and proof-reading services.

26 CONTINGENT LIABILITIES

During 2014 the College completed building improvements. An amount of £170k (2017 £170k) is disclosed as a contingent liability, in accordance with FRS102, in relation to disputed building charges which may become payable. At this stage the probability of payment is sufficiently remote that no provision has been made in the financial statements. There are ongoing negotiations on the funding of the USS pension deficit. This might cause an increase in the pension recovery plan provision in 2018/19.

27 POST BALANCE SHEET EVENTS

Following an update from Universities UK, it is highly unlikely that there will any decision around the level of deficit contributions before the end of 2018. This is because consultation around the level of deficit contributions is not time-tabled in until December 2018. It is acknowledged that this is an ever-changing picture and therefore the narrative around the level of deficit in both financial statements notes and strategic report may need refreshing over the Autumn prior to finalising the financial statements. However, neither an adjusting post balance sheet event nor a non-adjusting post balance sheet event are anticipated in view of the fact that the deficit contributions will not be finalised before the end of 2018.

29 AGENCY ARRANGEMENTS

The College is investing monies for the G B Caird Memorial Trust alongside its own investments. In the accounting period ending 31 July 2018 the College received investment income of £11k (2017: £Nil) and disbursed £0 (2017: £Nil) relating to investment management costs. The total balance held is £250K (2017: £Nil), with a corresponding creditor of £0 (2017: £Nil).
